Key Points and Issues For October 2009

Director's Note

After rallying over 50% from the March lows through the end of September, global equity markets corrected slightly in October. While corporate profits for the third quarter exceeded expectations, much of this profit growth came from cost containment rather than top line growth. This is consistent with recent economic data, which reflects continued weakness in employment, credit growth and consumer and business spending.

Until there are clear signs that the economic recovery has sufficient momentum to be self-sustaining, our view is that financial markets will continue to be heavily impacted by monetary and fiscal policies carried out by central banks and governments around the world. With a few exceptions, global policymakers seem resigned to keeping short-term interest rates exceptionally low and to maintaining stimulative fiscal policies for the time being. If this continues to be the case, this can be supportive of solid equity and credit market returns even though the economy may only “muddle through” with sub-par economic growth in the coming quarters.

The pension fund was down -0.89% for October, slightly ahead of the Council's benchmark return. For the fiscal year-to-date period, the fund is up 10.64%. The fund ended October at \$66.7 billion, up from \$63.2 billion as of June 30, 2009.

Total Pension Fund

- For the month of October, the fund was down -0.89% versus -0.92% for the benchmark. Estimated performance for the pension funds for the fiscal year-to-date ending on October 31, 2009 is 10.64% versus 10.96% for the Council benchmark. For the fiscal year-to-date period, we underperformed in both our domestic and international equity portfolios due to having a lower risk profile than the overall market (in particular, we remain underexposed to the financial services sector). The underperformance was mostly offset by our overweight position in stocks, which were the best performing asset class since June 30. Total pension fund assets as of October 31, 2009 were \$66.7 billion, up from \$63.2 billion as of June 30, 2009. Please note that since November 1, 2009 was a Sunday, the majority of the benefit payments for November actually were paid on the last business day of October (as per normal operating procedures). As a result, we estimate that net benefit payments made during October were approximately \$750 million.
- We were net sellers across all of our internally-managed portfolios, partly in order to raise cash to fund the net benefit payments discussed above. Within the domestic equity portfolio, we were net sellers of \$142.1 million. Within the international equity portfolio, we were net sellers of \$45.5 million. Within the domestic fixed income portfolio, we were net sellers of \$303.1 million, consisting

of net sales of nominal U.S. Treasuries and corporate bonds, partially offset by purchases of Build America bonds. Finally, we funded an additional \$75.8 million in commitments to various alternative investments in September.

- We transferred \$500 million out of public equities (\$300 million from domestic equities, \$200 million from international equities). Of this amount, \$300 million went into the pension fund cash balances to fund projected net benefit payments, while \$200 million went into Common Pension Fund E to fund future capital calls on various alternative investments.

Domestic Equity

- Performance for Common Pension Fund A for October was -2.06% versus -2.22% for the S&P 1500 Index, the benchmark for the domestic equity portfolio. For the first four months of the fiscal year, Common Pension Fund A returned 12.81% versus 13.48% for the benchmark. The two main factors impacting our relative performance for the fiscal year are (1) the portfolio's underexposure to financial services stocks and GE (where financial services represent roughly 50% of total net income) relative to the benchmark, and (2) the fund's cash position (which by itself detracted 35bp of performance relative to the benchmark).
- As stated above, net sales of equities in the portfolio in October were \$142.1 million. As in September, the major activity occurred in the health care sector, where we were net sellers of \$187.8 million. Other sectors with significant net sales were consumer staples and energy. Partially offsetting these sales were purchases of industrial and technology stocks. As we discussed at the September 2009 Council meeting, we have been gradually adopting a more "pro-cyclical" stance in the portfolio. Major issues that were sold include Schering Plough (\$113.2 million), Wyeth (\$92.6 million), Microsoft (\$64.4 million) and Exxon Mobil (\$41.4 million). These sales were partially offset by purchases of Verizon (\$41.6 million), Merck (\$32.0 million), RailAmerica (\$31.8 million) and Oracle (\$31.6 million).
- As noted above, we continue to gradually increase our exposure to sectors and individual names that should benefit from an improving economy. As of October 31, 2009, the portfolio is overweight in the basic materials, technology, utilities and consumer staples sectors. We are underweight in the financial services, telecommunications, consumer discretionary, health care and industrial sectors.

Domestic Fixed Income

- Performance for Common Pension Fund B for October was up 0.09%. Excluding our TIPS and high-yield portfolios contained within Common Pension Fund B, performance was -0.22%. This compares to -0.73% for the Barclays Long Government/Credit Index (which also excludes TIPS and high yield), which is our benchmark for the fixed income portfolio. For the fiscal year-to-date period,

Common Pension Fund B (excluding TIPS and high yield) returned 9.10% versus 7.74% for the Barclays Long Government/Credit Index. The duration of Common Pension Fund B (excluding TIPS and high yield) was 10.63 years as of October 31, 2009, versus 11.90 years for the Barclays Long U.S. Government/Credit Index.

- Our high yield portfolio, which now includes the long-only bank loan funds that were transferred from Common Pension Fund E, was up 1.40% for October versus 1.79% for the Barclays High Yield Index. The high yield portfolio is up 17.51% for the fiscal year-to-date period, and 58.51% for calendar year 2009. The TIPS portfolio was up 0.95% in October and 3.76% for the fiscal year.
- We had net sales of approximately \$303.1 million of domestic fixed income securities in October. Of this amount, we had net sales of nominal U.S. Treasuries of \$51.9 million, net sales of corporate bonds of \$352.5 million, and net purchases of \$101.2 million of Build America Bonds. Major sales in the corporate bond portfolio included Province of Quebec, Caterpillar, Wyeth, Chevron and Cisco. Build America Bonds that were purchased include New York City Transit, Metropolitan Transit Authority, American Municipal Power and Denver Colorado Airport.

International Equity/Fixed Income

- Common Pension Fund D returned -1.79% in October versus a return of -1.52% for the MSCI EAFE Index ex-Prohibited, the benchmark for the international portfolio, which is calculated by the Division and excludes those names deemed ineligible for investment under the State's Sudan and Iran Divestment Laws. For the fiscal year-to-date period, the portfolio was up 16.75% versus 18.20% for the benchmark. The equity portion of Common Pension Fund D returned 16.83% for the fiscal year-to-date period, while international sovereign debt returned 6.70%.
- We were net sellers of \$45.5 million in international developed markets equities in October. The major sales were in consumer discretionary and industrial stocks, while the major purchases were in the utilities, telecommunications and consumer staples sectors. The major sales were of Cintra (\$70.6 million), International Power (\$55.3 million), Fiat (\$49.8 million), Astellas Pharmaceutical (\$44.8 million) and Renault (\$38.6 million). Major purchases included Centrica (\$84.3 million), East Japan Railway (\$44.5 million) and Nintendo (\$38.2 million).

Alternatives

- During October we funded \$75.8 million of commitments to alternative investments. Major investments include \$10.0 million to Avenue Special Situation Fund, \$6.7 million to TPG Partners V, and \$6.0 million to the CSFB/NJDOI Investment Fund.

Cash Management Fund

- Total assets in the Cash Management Fund were \$12.9 billion as of October 31, 2009. The current yield is 0.44% for state participants and 0.34% for “non-State” participants.
