BRADLEY I. ABELOW
State Treasurer

January 26, 2007

Governor Jon S. Corzine
Members of the State Legislature
New Jersey Citizens

In accordance with the provisions of N.J.S.A. 52:27B-46, we are pleased to transmit to you the New Jersey Comprehensive Annual Financial Report for the fiscal year ended June 30, 2006. The Department of the Treasury's Office of Management and Budget prepared this report and is responsible for data accuracy as well as the completeness and fairness of the presentation, including all disclosures.

This Comprehensive Annual Financial Report presents the financial position and operating results of the State under generally accepted accounting principles (GAAP) applicable to State and Local governments as established by the Governmental Accounting Standards Board (GASB). The State also participates in the Government Finance Officers Association of the United States and Canada's (GFOA) review program for the Certificate of Achievement for Excellence in Financial Reporting.

The State operates in accordance with the standards provided in GASB Statements No. 34 and No. 35. The objectives of this reporting model, as reflected in these statements, are to provide a clear picture of the government as a single unified entity as well as providing traditional fund based financial statements. All revenues, costs, assets, and liabilities of the State are shown to clearly portray the State's fiscal health. Management's discussion and analysis is included in order to provide users with an objective and easily readable analysis of New Jersey's financial performance for the fiscal year ended June 30, 2006. We are confident that the data is accurate in all material respects, that it is presented in a manner designed to set forth fairly the financial position and results of the State's operations as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial affairs have been included.

The New Jersey Comprehensive Annual Financial Report for the fiscal year ended June 30, 2006 is organized in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter and the 2005 GFOA Certificate of Achievement for Excellence in Financial Reporting. The financial section includes the independent auditor's report on the basic financial statements, management's discussion and analysis, government-wide financial statements, fund financial statements for governmental funds, proprietary funds, fiduciary funds, and component units, together with notes to the basic financial statements as well as additional required supplementary information (Budgetary Schedules), and the other supplementary information (Combining Fund Statements). The statistical section includes financial trends, revenue capacity, debt capacity, demographic, economic, and operating information.

HIGHLIGHTS AND INITIATIVES

Fiscal Year 2006

- Following the tragic death of several children due to abuse and neglect, a class action lawsuit was settled by the State in June 2003. The settlement created a Child Welfare Reform Panel whose role was to approve a reform plan and to oversee its implementation over an 18 month period. The plan, titled *A New Beginning: Child Welfare Reform in New Jersey*, was approved on June 9, 2004, and incorporated as part of the settlement. The Fiscal Year 2006 Appropriations Act provided an additional \$55.0 million in State funds to sustain and expand Child Welfare Reform efforts. Some of the implemented reforms are as follows:
 - Organization of Children's Services. All child welfare services have been restructured under the new Department of Children and Families. Within this new organization, the Division of Youth and Family Services, the Division of Child Behavioral Health, the Division of Prevention and Community Partnerships, and the Child Welfare Training Academy have been merged.

- Additional Caseworkers and Support Staff. The Fiscal Year 2006 Appropriations Act provided funding for additional employees that allowed the Division of Youth and Family Services to move towards its goal of achieving caseload to staff ratios of 12 to 1 for protective staff and 15 to 1 for permanency staff.
- The Fiscal Year 2006 Appropriations Act increased State appropriations for several programs that benefited the developmentally disabled. As part of the Department of Human Services Division of Developmental Disabilities' ongoing Community Service Waiting List initiative, funding was made available to place 200 people from the existing Community Services Waiting List and the seven State developmental centers into group homes. This was a 3.0 percent increase over the prior fiscal year, with full year funding totaling \$12.6 million. A new program, Real Life Choices, provides in-home/respite services for people on the Community Services Waiting List and for people living at home with parents and guardians. Real Life Choices reduces the Community Services Waiting List by providing home support for disabled persons and their families as an alternative to residential placements. Each year, the Division of Developmental Disabilities receives approximately 200 requests for immediate, emergency residential placements. The requests include people whose caregivers, usually elderly parents, are no longer able to provide care because of their own medical problems. An additional \$7.0 million was earmarked to meet this anticipated need.

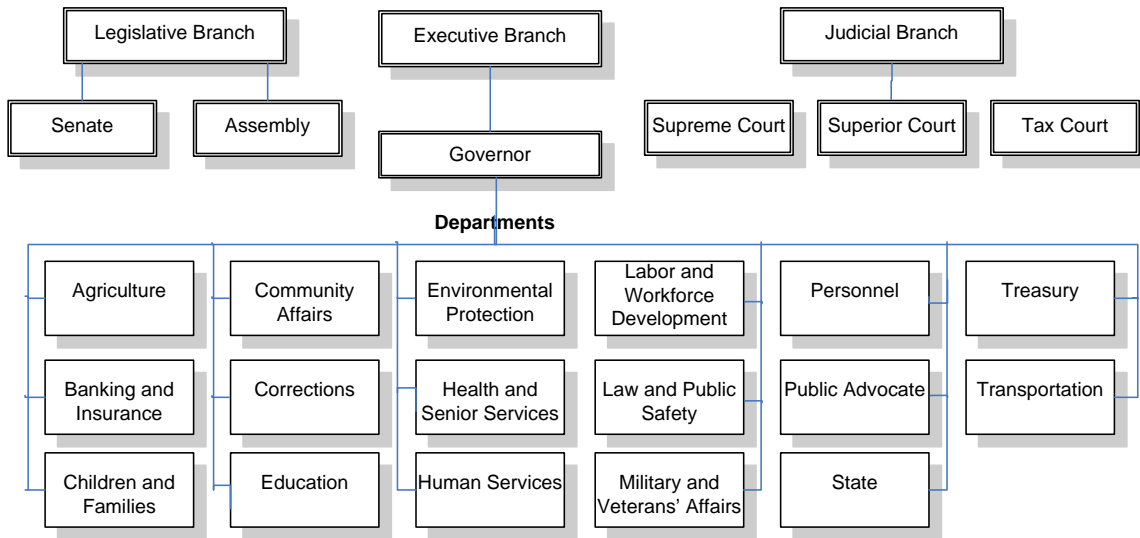

Fiscal Year 2007

- The Fiscal Year 2007 Budget provides for a constitutional ballot measure that enables the State's General Fund to provide for the annual dedication and annual appropriation of an amount equal to the annual revenue derived from a tax rate of 0.5 percent imposed under the New Jersey Sales and Use Tax, exclusively for the purpose of property tax reform, through a special Property Tax Reform Account established in the Property Tax Relief Fund. This measure is expected to provide \$600.0 million in property tax relief. This November, the citizens of New Jersey approved this referendum.
- Although fiscal constraints limit the ability to fully fund pension costs, the Fiscal Year 2007 Appropriations Act accelerates toward full funding and provides a funding increase of \$868.0 million to the State's pension systems. This amount represents more than the State's total combined contribution to the State pension systems from Fiscal Year 1997 through Fiscal Year 2006.
- The Fiscal Year 2007 Budget recognizes that federal funding for special education falls dramatically short. When the Individuals with Disabilities Education Act was first established, the federal government promised to pay 40.0 percent of the national average of per pupil expenditure. However, current federal funding is less than 20.0 percent. The Fiscal Year 2007 Budget provides \$15 million for a grant program for school districts operating or starting up in-district programs for students with autism spectrum disorders. Districts will be able to use these funds for professional development, personnel costs, special education teachers, program coordinators, behavior intervention specialists, parent outreach, transition planning, assistive technology, and similar activities. Also included in the Fiscal Year 2007 Budget is \$4.5 million in new grants funding for planning and start-up costs for districts that seek to develop or enhance their special education programs.
- Recognizing the need for repairs and maintenance, the Fiscal Year 2007 Budget provides \$9 million for capital improvements in State parks, forests, wildlife management areas, and historic sites. The Department of Environmental Protection plans to undertake critical health and safety improvements including demolition of unsafe structures, asbestos removal, and lead abatement. Major projects include restorations of State-owned historic sites, such as Batsto and Atsion Mansions, Rockingham, Waterloo Village, and the historic train sheds at Liberty State Park.

NEW JERSEY GOVERNMENT

The Executive Branch is headed by the Office of the Chief Executive, which includes the Governor and staff that assist in the execution of the Governor's constitutional powers and duties. The Governor is the State's chief operating officer, and assists in directing and coordinating the activities of the various State departments. These duties include the implementation of new laws and activities, as well as ongoing responsibilities associated with existing laws, and other essential aspects of governing. The Office of the Chief Executive is active in the review and formulation of proposals of law that are ultimately submitted to the State Legislature. Staff assists in the development of public policy affecting the citizens of the State, and in the implementation of the State's fiscal plan once it is adopted.

ORGANIZATION OF NEW JERSEY STATE GOVERNMENT

The Executive Branch consists of 17 departments comprising approximately 70,100 employees. The maximum number of departments permitted by the State Constitution is 20. Each department is headed by a single executive; four also have boards with policy-making and oversight responsibilities. Department heads and board members are appointed by the Governor with the advice and consent of the Senate, except for the Secretary of Agriculture, who is chosen by the Board of Agriculture with the approval of the Governor. Department heads continue in office until successors are named and confirmed by the Senate, with the exception of the Attorney General and the Secretary of State, who are appointed to serve during the Governor’s term. The Executive Branch oversees the performance of 566 municipalities and 611 school districts, and the incarceration and rehabilitation of approximately 27,000 prisoners. The Executive Branch also provides social services for one out of eight New Jersey citizens, reliable transportation, and protection for the State’s citizenry and environment.

The State Senate and the General Assembly comprise New Jersey’s Legislative Branch. There are 40 legislative districts with elections being held in odd-numbered years. There are 40 members of the State Senate. State Senators are elected to terms of four years, except for the election following a decennial census, in which case the term is for two years. There are 80 members of the General Assembly; each is elected to a two-year term. The Office of Legislative Services is a nonpartisan agency that provides legislators with legal, fiscal, research, information, and administrative services. It is organized with an executive director, a legislative counsel, the state auditor, a director of central staff, a director of data management, and a director of administration.

The Judicial Branch consists of the Supreme Court, the Appellate Division of the Superior Court, and the Tax Court. Judges are nominated by the Governor and must be confirmed by the Senate. Terms are for seven years. For purposes of judicial administration, the State is divided into 15 vicinages, each consisting of a single county or a combination of counties. The Administrative Office of the Courts provides support services. Approximately 7.0 million new cases are filed in New Jersey’s courts every year, including 6.0 million in Municipal Court and 1.0 million in Superior Court. These cases address matters concerning civil, criminal, and family law.

COMPONENT UNITS

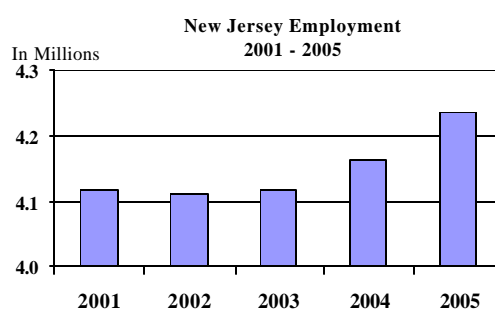

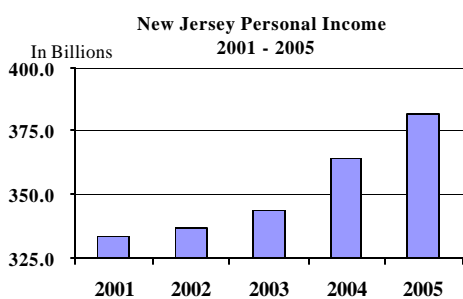

This Comprehensive Annual Financial Report for the fiscal year ended June 30, 2006 includes the accounts of 22 public authorities, and 12 State colleges and universities in accordance with the requirements of GASB Statement No. 14, *The Financial Reporting Entity*. Public authorities are legal, separate entities that are not operating departments of the State. Governing boards are vested with the power to independently manage. Each component unit is established for a specific purpose for the benefit of the State’s citizenry. GASB Statement No. 14 provides that the State’s financial statements should emphasize the primary government and permit financial statement users to distinguish between the primary government and its component units. As a result, the transmittal letter, management’s discussion and analysis, and the financial statements focus on the primary government of the State and its activities, although information pertaining to the component units is presented. For additional information, please see Note 19 – Component Units.

NEW JERSEY'S ECONOMIC CONDITION

New Jersey's economy continues to expand in 2006 but at a slower pace than 2005. New Jersey added approximately 116,300 jobs between the bottom of the employment cycle in March 2003 and June 2006. Payroll employment is growing at an average annual rate of 0.9 percent in 2006 after growing at rates of 1.2 percent in 2005, and 0.5 percent in 2004. The level of payroll employment in June 2006, 4.1 million, surpassed the last record level reported in December 2000 for the seventeenth month in a row.

The generally improving labor market conditions have kept the State's jobless rate below 5.0 percent in June 2006 for the twenty-third time since June 2004, after a brief higher reading in April and May (5.1 percent and 5.0 percent, respectively). New Jersey's unemployment rate remains slightly above the national unemployment rate.

According to the United States Bureau of Economic Analysis (release dated June 22, 2006), the preliminary growth rate for New Jersey's personal income of 5.1 percent for the first quarter of 2006 came in above the revised growth rate of 4.3 percent for the fourth quarter of 2005. The average annual growth in personal income for New Jersey is expected to continue to improve at a moderate pace in 2006.

Housing, which has been a robust sector, is expected to cool off in the months ahead with housing permits in 2006 to stay around 25,000 plus units, below the estimated 27,000 plus units for 2005. Vehicle registrations for 2005 were 2.6 percent below 2004 with 2006 vehicle registrations through June remaining at the 2005 level.

New Jersey's and the nation's economy is expected to continue expanding through the rest of 2006 and into 2007. The recently released Beige Book on economic performance dated June 14, 2006 from the United States Federal Reserve Board is slightly less upbeat when compared to previous reports, reflecting an economy in transition that is adjusting to elevated energy prices and higher interest rates. The latest New Jersey economic forecasts from Global Insight, Moody's Economy.com, and Rutgers University project continued economic growth at a moderate pace. All expect a gradual easing in the economic momentum as the housing market slows down.

New Jersey's economy is expected to follow the national trend for the rest of the year, and into 2007. Employment is projected to grow at a 0.9 percent rate in 2006 and at a 0.7 percent rate in 2007. Personal income is expected to grow steadily at a 6.0 percent rate in 2006 and 2007. The housing sector is expected to cool in 2006 to 33,000 units with further slowing in 2007. New motor vehicle registrations are projected to be above the 620,000 units in 2006 and improve in 2007.

Despite the surge in energy prices, inflation is expected to remain under control. Low interest rates have supported spending on housing and other consumer durables in the State. However, should interest rates continue to rise in 2006, it will have a moderating influence on interest-sensitive spending in the economy.

The State and the nation may experience further near-term slow growth and the expected pace of economic expansion may stall if consumers, investors, and businesses become more concerned about energy prices and geopolitical tensions. To a large extent, the future direction of economic expansion nationally and in New Jersey hinges on assumptions of stable energy prices and financial markets, along with supportive monetary and fiscal policies and geopolitical stability. However, the fundamentals of the State's economic health remain stable and the long term prospects for economic growth of the State in 2006 and beyond are favorable.

The Statistical Section contains various demographic and economic tables for New Jersey.

BUDGET AND ACCOUNTING

Budget Process

The State Constitution, as well as certain statutes, governs the State's budget and appropriation process. Each department, board, commission, office or other agency of the State begins the budget process by filing with the Director of the Office of Management and Budget (the "Director") a request for appropriation or permission to spend, specifying all expenditures proposed to be made by such spending agency during the following fiscal year. The Director examines each request and determines the necessity or advisability of the appropriation request. After review and examination, the Director submits the requests, together with findings, comments, and recommendations, to the Governor. It is the Governor's responsibility to examine and consider all requests and formulate budget recommendations. The Governor's Budget Message is transmitted on the fourth Tuesday in February, unless otherwise provided through legislation.

During the course of the fiscal year, the Governor may take steps to reduce State appropriations if it appears that revenues have fallen below those originally anticipated. The Governor, with approval from the State Legislature, may enact supplemental appropriations after the adoption of the annual Appropriations Act, should there be sufficient revenues on hand or anticipated, as certified by the Governor, to meet such appropriation.

New Jersey's budget process is comprehensive and inclusive, involving every agency in the Executive branch, the Legislature, the Judiciary, and through a series of public hearings, the citizens of the State. It begins in the summer prior to the budget year with preliminary projections of revenues and expenditures, which are the basis for development of budget targets for each branch, department, and agency. Individual agencies are asked to prepare a funding plan or strategy for operating within the established target in the upcoming budget year that includes an analysis of the costs, benefits, and priorities of every program. These plans are the foundation for revenue and spending decisions that are ultimately incorporated into the budget recommendations presented by the Governor and enacted by the Legislature.

Legal Level of Control

The State's Annual Appropriations Act includes the General Fund and certain Special Revenue Funds (Casino Control, Casino Revenue, Gubernatorial Elections, and Property Tax Relief Funds). Legal control is maintained within the departments at the appropriation line item level. Budgetary control is exercised at the department level by individual appropriations and allocations within appropriations to various programs and major expenditure objects. Program classifications represent a lower level, operating program function, consisting of closely related activities with identifiable objectives or goals. During the budget year, revisions to the annual Appropriations Act reflecting program changes or interdepartmental transfers of an administrative nature may be effected with certain Executive and Legislative Branch approvals. Under the "General Provisions" section of the State's annual Appropriations Act, management may amend the budget within a department with the Director of the Office of Management and Budget's approval. Under specific conditions, additional approval by the Office of Legislative Services is required. Only the State Legislature, however, may transfer appropriations between departments.

Accounting Systems

For the various State departments, accounting records are maintained by a central accounting system. System operations are directed and supervised by the Office of Management and Budget. The State's annual budget is composed of individual appropriations to departments for specific programs and purposes. Component units maintain separate accounting systems.

Encumbrance accounting is employed to ensure that expenditures do not exceed appropriations and allocations. Purchase orders, contracts, and other commitments involving monetary expenditures are encumbrances. Any unencumbered and unexpended non-continuing appropriations lapse at fiscal year's end.

Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system. Internal accounting controls are designed to provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and that financial records are reliable for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and that the evaluation of costs and benefits require managerial estimates and judgments. All internal control evaluations occur within this framework.

RELEVANT FINANCIAL POLICIES

The State Constitution mandates a balanced budget. It provides, in part, that no money shall be drawn from the State Treasury but for appropriations made by law and that no law appropriating money for any State purpose shall be

enacted if the appropriations contained therein, together with all prior appropriations made for the same fiscal period, shall exceed the total amount of the revenue on hand and anticipated to be available to meet such appropriations during such fiscal period, as certified by the Governor. During the fiscal year, the State may have to make several revenue and expenditure adjustments to ensure a positive fund balance. The State has had a balanced budget in every fiscal year since the adoption of the State Constitution in 1947.

As part of the General Fund's resources and fund balance, the Surplus Revenue Fund was created as a rainy day fund. It is used to account for excess revenues from prior fiscal years that are legislatively reserved and may be used to support current year's appropriations in the event that anticipated revenues in the General Fund are estimated to be less than those certified by the Governor upon approval of the annual Appropriations Act. The Surplus Revenue Fund was designed to build fund balance during economic upswings, and to be expended during economic downturns and emergency situations. An example of revenue collections outpacing projections occurred during Fiscal Year 2006, when \$271.1 million was deposited into the Surplus Revenue Fund. An example of an emergency situation that resulted in tapping the Surplus Revenue Fund occurred in Fiscal Year 2000 when the State needed \$26.9 million in emergency disaster relief funds to aid flood victims of Hurricane Floyd.

The State's budgetary basis of accounting differs from that utilized to present fund financial statements in conformance with GAAP. The main differences between the budgetary basis and the GAAP basis used to present fund financial statements are that under the budgetary basis encumbrances are recognized as expenditures, the federal revenue related to such encumbrances is also recognized, and the budgetary basis reflects transactions only for the current fiscal year. In addition, under the GAAP basis in the fund financial statements, certain grants and other financial assistance are required to be recorded as revenues and expenditures.

FINANCIAL TRENDS

Children and Families

In response to a child welfare system that has been in a state of crisis, aggressive reform has required a focus that was not possible under the current Department of Human Services structure. July 1, 2006 marks the creation of the Department of Children and Families that will be initially composed of divisions in the Department of Human Services that focused on child protection, welfare, education and permanency, child behavioral health, and abuse prevention. While building on its accomplishments from the prior year, the Fiscal Year 2007 Budget for the Department of Children and Families totals \$974.8 million. This amount reflects a \$235.6 million increase over the prior year's associated funding under the Department of Human Services. The entire \$235.6 million is dedicated to child welfare services and operations, with no new funding dedicated to costs associated with establishing the new department. A new interim body, the Governor's Task Force on Human Service Restructuring, will be empanelled to evaluate existing resources within State government and to make recommendations for efficiency and alignment of resources to improve services in the areas of child welfare in the Department of Children and Families and for vulnerable residents being served by the Department of Human Services.

Corrections

The Department of Corrections' mission is to ensure that all persons committed to the State's correctional institutions are confined with the level of custody necessary to protect the public, and that they are provided with the care, discipline, training, and treatment needed to prepare them for reintegration into the community. The Fiscal Year 2007 Budget totals \$1.076 billion. The Division of Operations, with a budget of \$861.5 million, is responsible for 14 major institutions. Collectively, county jails, community treatment programs and these facilities, house approximately 27,000 inmates in minimum, medium, and maximum security levels. The Division of Programs and Community Services offers an array of institutional and community-based programs for offenders, including community labor assistance, academic and vocational educational programs, recreational programs, library services, and substance abuse treatment. The State's Parole Board, with a budget of \$98.5 million, promotes the effective and efficient assessment of inmates prior to parole and the efficient supervision of parolees after they have attained parole status. In recent years, the Department has established a Sex Offender Management Unit, and a Satellite-based Monitoring (GPS) of Sex Offenders Pilot Program. The Department has also recently completed collecting DNA samples of all of its offenders, as well as implementing a Community Notification System that alerts citizens in the case of a correctional emergency, such as an escape, fire or evacuation.

Public Advocate

During January 2006, the Department of the Public Advocate was restored as a principal department in the Executive Branch of State government. The Department is mandated to provide consumer protection and advocacy on behalf of the indigent, the elderly, children and other persons unable to protect themselves as individuals of a class. Since January 2006 the Department has been working to reestablish the divisions and functions that existed prior to its abolishment in 1994. This includes the Division of Citizens Relations and the Division of Public Interest Advocacy.

Other similar functions that existed independently or were parts of other State agencies have been consolidated into the Department of the Public Advocate. These include ombudspersons and ratepayer advocate functions. The Fiscal Year 2007 Budget totals \$19.4 million, a \$3.2 million increase over the prior fiscal year.

AUDIT INFORMATION

The principal auditor of the State's reporting entity is the Office of the State Auditor, which resides in the legislative branch of State government. The State Auditor's examination was conducted in accordance with generally accepted auditing standards and its opinion precedes the Basic Financial Statements. Outside public accounting firms have been used for the audits for separately issued component units and college and university financial statements. In addition, the Office of the State Auditor conducts periodic financial and expanded scope audits of the various State agencies.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The GFOA awarded the Certificate of Achievement for Excellence in Financial Reporting to the State of New Jersey for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2005. In order to qualify, a governmental entity must publish an easily readable and efficiently organized comprehensive annual financial report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. The State of New Jersey has received this award every year since 1993.

ACKNOWLEDGEMENTS

Finally, we would like to express our appreciation to the many dedicated professionals in the Office of Management and Budget and the Office of the State Auditor whose efforts made possible the preparation of this report. We believe that their combined efforts have produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely,

Bradley I. Atchew
State Treasurer

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Jersey as of and for the year ended June 30, 2006, which collectively comprise the State's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the State of New Jersey's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component units, the pensions and other employee benefits trust funds, and the Port Authority of New York and New Jersey which represent 100 percent of the assets and revenues of the aggregate discretely presented component units, 100 percent of the assets and revenues of the Health Benefits Local Government Employers Program Fund which is a major proprietary fund, 89 percent of the assets and 40 percent

of the revenues (including additions) of the aggregate remaining fund information, and 100 percent of the information disclosed in Note 2-E of the basic financial statements. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts and disclosures included for the component units, the pensions and other employee benefits funds, and the Port Authority of New York and New Jersey, are based solely on the reports of the other auditors.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

The financial statements of the University of Medicine and Dentistry of New Jersey have not been audited, and we were not engaged to audit those financial statements as part of our audit of the State of New Jersey's basic financial statements. This entity is audited by other auditors; however, their report was not finalized as of the date of this report. The University of Medicine and Dentistry of New Jersey's financial activities are included in the State of New Jersey's basic financial statements as a discretely presented component unit and represent 6 percent, 7 percent, and 17 percent of the assets, net assets, and revenues, respectively, of the State of New Jersey's aggregate discretely presented component units.

In our opinion, based on the reports of other auditors, except for the effects of such adjustments, if any, as might have been determined to be necessary had the University of Medicine and Dentistry of New Jersey's financial statements been audited, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component units of the State of New Jersey as of June 30, 2006, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In addition, in our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the State of New Jersey as of June 30, 2006, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 26, 2007 on our consideration of the State of New Jersey's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to

provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, the budgetary comparison schedules, and the funding progress schedule for all pension trust funds are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose on forming opinions on the financial statements that collectively comprise the State of New Jersey's basic financial statements. The introductory section, combining financial statements – non-major funds section, other information section and the statistical section, listed in the table of contents, are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining financial statements – non-major funds section and the other information section have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following narrative provides an overview and analysis concerning New Jersey State Government's financial performance of its activities for the fiscal year ended June 30, 2006. Readers should consider this information in conjunction with the transmittal letter, which precedes Management's Discussion and Analysis, and the State's financial statements, which follow.

The State, since July 1, 2002 has been accounting and reporting under the standards outlined in the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Therefore, a majority of the information provided is not easily comparable to reporting periods prior to the fiscal year ended June 30, 2002. Year-to-year comparisons are provided in the Management's Discussion and Analysis and the Statistical Section. It is the intent of GASB Statement No. 34 to provide meaningful comparisons that will further explain the State's financial position and results of its operations.

FINANCIAL HIGHLIGHTS

Government-wide

- The primary government's assets total \$35.4 billion, an increase of \$4.4 billion from the prior fiscal year. This increase was the result of a \$3.4 billion increase in investments as well as a \$1.0 billion increase in the State's capital assets. As of June 30, 2006, liabilities exceeded assets by \$6.6 billion. The State's unrestricted net assets, which represent net assets that have no statutory commitments and are available for discretionary use, totaled a negative \$19.7 billion. The negative balance is primarily a result of financing unfunded actuarial liabilities in the State's pension fund systems and uninsured motorist funds, financing local elementary and high school construction, and securitizing tobacco master settlement agreement receipts.
- June 30, 2006 component unit assets exceeded component unit liabilities by \$14.2 billion. Total component unit assets grew to \$35.9 billion, a \$420.2 million increase in assets from the prior fiscal year. Higher capital assets represent a majority of this increase.

Fund Level

- The State's governmental funds reported June 30, 2006 combined ending fund balances of \$11.5 billion, an increase of \$3.3 billion from the prior fiscal year. Of this amount, \$2.4 billion represents unreserved undesignated fund balances with the remainder reserved for specific, legislated purposes, management reserves, and constitutional dedications. The General Fund's total ending fund balance is \$4.4 billion, with \$1.2 billion unreserved - undesignated.
- Proprietary Funds reported June 30, 2006 net assets of \$1.5 billion. During the fiscal year, this amount decreased by \$183.8 million.

Long-term Debt

- The State's long-term debt obligations increased 17.7 percent, to \$37.4 billion, which includes a net increase in bonded debt of \$4.5 billion.
- During the fiscal year, the State issued \$7.1 billion in bonds. New money issuances represented \$4.7 billion for transportation and education system improvements, while \$2.4 billion represented six refunding transactions that provided the State with \$48.8 million in net present value savings. During the fiscal year ended June 30, 2006, the State paid \$1.9 billion in debt service on its long-term debt components. Non-bonded portions of the State's long-term debt total \$5.6 billion. This amount represents a \$1.1 billion increase from the prior fiscal year and is mainly attributable to increases in net pension obligations.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. Both statements present different views of the State's financial information. The Comprehensive Annual Financial Report includes Notes to the Financial Statements; Required Supplementary Information (Budgetary Schedules) as well as Other Information.

Government-wide Financial Statements

Government-wide financial statements provide a broad view of the State's operations conforming to private sector accounting standards and provide both short-term and long-term information regarding the State's overall financial position through the fiscal year end. The government-wide financial statements include the following two statements:

- **Statement of Net Assets** Presents all of the State's assets and liabilities and calculates net assets. Increases or decreases in the State's net assets over time may serve as a useful indicator as to whether or not the State's overall financial position is improving or deteriorating.
- **Statement of Activities** Presents how the State's net assets changed during Fiscal Year 2006. All changes in net assets are reported when the underlying event occurs, giving rise to the change, regardless of the timing of related cash flows. This statement also presents a comparison between direct expenses and program revenues for each State function.

Both the Statement of Net Assets and the Statement of Activities have separate sections that report three activities:

- **Governmental Activities** The majority of State service functions fall into this category, which includes Executive, Legislative, and Judicial Branch operations. Governmental activity functions rely heavily on State taxes and federal grant receipts for funding their respective programs and functions.

- **Business-type Activities** Certain State operations that are legislatively able to charge fees to external users to recover all or a portion of the cost of the services that are provided are classified as business-type activities. The State Lottery Fund and the Unemployment Compensation Fund are two such examples.
- **Component Units** Legally separate operations and organizations for which the State has financial accountability are considered component units. The State has 22 authorities, of which the New Jersey Building Authority, the Garden State Preservation Trust, the New Jersey Transportation Trust Fund Authority, and the Tobacco Settlement Financing Corporation, Inc. are blended into governmental activities, and 12 colleges and universities that are reported as component units. These component units operate as business-type activities and are presented in two categories, major and non-major which is determined, generally, by the relative size of the entity's assets, liabilities, revenues, and expenses when compared to the total of the related component units. A list of the State's component units is shown in Notes 1B – Significant Accounting Policies – Financial Reporting Entity and Note 19 – Component Units in the Notes to the Financial Statements. Audit reports of the individual component units can be obtained from their respective administrative offices.

Reconciliation of Government-wide and Fund Financial Statements

The Comprehensive Annual Financial Report includes two schedules that reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the financial reporting impacts of transitioning from a modified accrual basis of accounting to a full accrual basis of accounting:

- Capital assets used in governmental activities are not reported on governmental fund financial statements.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond and note proceeds result in liabilities on the government-wide financial statements, but are recorded as other financing sources on the governmental fund financial statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental fund financial statements.

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements and fund financial statements.

Fund Financial Statements

A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The State's fund financial statements reflect financial reporting practices in accordance with this definition. The State's funds, which excludes components units, are divided into three categories – governmental, proprietary, and fiduciary.

- **Governmental Funds Financial Statements** Most direct state services are financed through governmental funds, which are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The governmental funds' financial statements focus on current inflows and outflows of expendable resources and the unexpended balances at the end of a fiscal year that are available for future spending. Governmental fund information helps determine whether or not there was an addition or a reduction in financial resources that can be spent in the near future to finance State programs.

The State's governmental funds are the General Fund, Special Revenue Funds, and Capital Projects Funds. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The basic governmental funds' financial statements can be found immediately following the government-wide financial statements.

- **Proprietary Funds Financial Statements** Proprietary funds are used to account for State business-type activities. Since these funds charge fees to external users, they are known as enterprise funds. Proprietary funds provide the same information as government-wide financial statements and use the accrual basis of accounting.
- **Fiduciary Funds Financial Statements** Fiduciary funds, which include State pension fund systems, are used to account for resources held by the State for the benefit of parties outside of State government. Fiduciary funds are

reported using the accrual basis of accounting, in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. Government-wide financial statements exclude fiduciary fund activity and balances since the assets are legislatively restricted in purpose and do not represent discretionary assets the State can use to fund its operations.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional background information that assist the reader in understanding the data provided in the government-wide financial statements and fund financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes budgetary schedules that reconcile the statutory intent of the program with fund balances in accordance with generally accepted accounting principles at fiscal year end as well as variances between the final budget and actual results on a budgetary basis. Also there is a Schedule of Funding Progress for all Pension Trust Funds.

Combining Financial Statements

Combining financial statements are presented for the non-major governmental, proprietary and fiduciary funds. Non-major funds are shown in the aggregate in the basic financial statements.

Other Information

Information on New Jersey's capital assets, long-term debt, and non-major budgetary comparison schedules are displayed in this section. Schedules of Anticipated and Appropriated Revenues provide detailed information on major and miscellaneous taxes, fees, and other revenues. The Schedule of Anticipated Revenue provides further analysis by showing dollar and percentage variances of actual collections as compared to the original anticipation. The Schedule of Appropriations and Expenditures, shown in this section, details the comparison of expenditures at the legal level of control to the final budget.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The State's fiscal year ended combined net assets totaled a negative \$6.6 billion. Fiscal Year 2006 activities showed a \$711.1 million decrease in combined net assets, with net assets of governmental activities decreasing by \$527.3 million, and business-type activities decreasing by \$183.8 million.

Restricted net assets are the largest component of the State's net assets. Capital assets, net of depreciation, are used by the State to provide services to citizens; consequently these assets are not available for future spending. Land, land improvements, buildings and improvements, machinery and equipment, infrastructure (roads, bridges, and other

immovable assets), and construction in progress are shown less any related outstanding debt used to acquire these assets.

Changes in Net Assets

The State's Fiscal Year 2006 net assets decreased by \$711.1 million. During Fiscal Year 2006, the State disbursed \$1.4 billion to the New Jersey Schools Construction Corporation to help finance school facilities construction throughout the state. Approximately 53.4 percent of the State's total revenue came from general taxes, while 21.7 percent was derived from charges for services. Operating grants amounted to 19.6 percent of total revenues, while other items such as governmental subsidies and grants, capital grants, interest and investment earnings, and miscellaneous revenues accounted for the remainder. State expenditures cover a range of services. The largest expense, 28.0 percent was for educational, cultural, and intellectual development. Physical and mental health amounted to 19.2 percent of total expenditures, while government direction, management, and control amounted to 16.3 percent. Other major expenditures focused on economic planning, development, and security, public safety and criminal justice, and community development and environmental management. During Fiscal Year 2006, governmental activity expenses exceeded program revenues, resulting in the use of \$30.5 billion of general revenues (mostly taxes and transfers). Revenues from business-type activities in Fiscal Year 2006 exceeded expenses by \$602.0 million.

The deficit in unrestricted governmental net assets arose primarily as a result of the cost of the State's school facilities construction program, depreciation expense related to capital assets, and certain liabilities that are required to be included in the government-wide financial statements.

Primary Government – Fiscal Year 2006 Revenues and Expenditures

During Fiscal Year 2006, State revenues, including transfers, totaled \$50.0 billion, an increase of \$4.9 billion from the prior fiscal year. General taxes totaled \$26.7 billion and accounted for 53.4 percent of total State revenues for Fiscal Year 2006. This amount reflects a \$3.4 billion increase from the prior fiscal year. The State’s Gross Income Tax totaled \$11.1 billion, the Sales and Use Tax totaled \$6.8 billion and the Corporation Business Tax totaled \$3.2 billion. The State’s three major taxes comprised 79.0 percent of the total general taxes that were collected during Fiscal Year 2006.

Fiscal Year 2006 expenditures totaled \$50.7 billion, an increase of \$2.3 billion from the prior fiscal year. The largest increase in expenditures occurred in the area of economic planning, development, and security. This increase of \$791.2 million represented a 19.2 percent increase over the prior fiscal year. Overall, 47.2 percent of all State expenditures occurred in the areas of education, higher education and physical and mental health.

The following pie charts depict primary government activities for revenues and expenditures for the fiscal year ended June 30, 2006:

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

The focus of the State's major governmental funds reported in the fund financial statements is on near term inflows, outflows, and balance of expendable resources, which are essential elements in assessing the State's financing needs and serve as useful measures of the government's net resources available for future spending. The State's governmental funds reported June 30, 2006 fund balances of \$11.5 billion.

The following table presents a fund balance comparison of the components of the State's budgeted ending undesignated fund balance for Fiscal Year 2006 and Fiscal Year 2005:

Fund Balance Comparison (Expressed In Millions)

Fund	Fiscal Year		Change
	2006	2005	
General Fund	\$ 1,216.7	\$ 461.7	\$ 755.0
Surplus Revenue Fund	559.8	288.6	271.2
Property Tax Relief Fund	2.6	27.9	(25.3)
Casino Control Fund	(1.6)	1.3	(2.9)
Casino Revenue Fund	1.0	--	1.0
Total	\$ 1,778.5	\$ 779.5	\$ 999.0

General Fund

The General Fund is the State's chief operating fund and is the fund into which all State revenues, not otherwise restricted by statute, are deposited. The General Fund's fiscal year ending fund balance totaled \$4.4 billion, of which, \$2.5 billion represented unreserved fund balances. During Fiscal Year 2006, total fund balance increased by \$1.2 billion.

On a budgetary basis, general revenues of \$26.9 billion were \$2.5 billion lower than the final budget. The negative variance was primarily the result of unearned federal and other grant revenues of \$1.5 billion, services and assessments of \$464.7 million, and licenses and fees of \$171.6 million.

Total expenditures were \$3.2 billion lower than original appropriations set forth in the annual Appropriations Act plus supplemental appropriations enacted during the fiscal year. A major cause for under spending resulted from the State's historical practice of over appropriating federal funds. This practice allows the State to receive the maximum federal dollars that become available. During Fiscal Year 2006, the State's appropriation of federal funds and other grants exceeded expenditures by \$1.5 billion. These excess appropriations are available for use in future years. From a program perspective, under spending in Fiscal Year 2006 includes \$615.3 million from economic planning, development and security, \$574.1 million from physical and mental health, \$47.0 million from community development and environmental management, \$460.0 million from government direction, management, and control, and \$426.5 million from educational, cultural, and intellectual development. Other variances include \$386.2 million from public safety and criminal justice, \$122.8 million from special government services, and \$69.2 million from transportation programs.

The Surplus Revenue Fund is an account within the State's General Fund that is used as a "Rainy Day Fund." Surplus revenue is defined as an amount equivalent to 50.0 percent of the excess between the amount certified by the Governor at the time of the approval of the annual Appropriations Act and the amount of General Fund revenue reported from the annual financial report of the General Fund for that fiscal year. During Fiscal Year 2006, the State deposited \$271.2 million into the Surplus Revenue Fund. This amount includes interest earnings that accrued on its fund balance during the fiscal year.

Property Tax Relief Fund

The Property Tax Relief Fund accounts for revenues from the Gross Income Tax. Appropriations from this fund must be used exclusively for the constitutional purpose of reducing or offsetting property taxes. During Fiscal Year 2006, \$10.9 billion of property tax relief expenditures were made. The Property Tax Relief Fund's Fiscal Year 2006 ending unreserved - undesignated fund balance is \$2.6 million.

State Lottery Fund

Monies derived from the sale of State lottery tickets are deposited into this fund. Disbursements are authorized for the payment of prizes to holders of winning lottery tickets and for the administrative expenses of the Division of State Lottery. Available fund balances are transferred to the State's General Fund in support of the amounts annually

appropriated for State institutions and for education. The present value of obligations for future installment payments of lottery prizes, which are funded by the purchase of deposit fund contracts, are accounted for in this fund.

In Fiscal Year 2006, gross revenues totaled \$2.4 billion, of which \$1.4 billion was returned in prizes, \$844.2 million went to State education and institutions, \$192.9 million was paid to sales agents and ticket vendors, and \$29.4 million covered Lottery operational and promotional expenses. As of June 30, 2006, the State Lottery, since its inception, has generated over \$39.4 billion in gross revenues, \$20.5 billion in prizes, and contributed \$15.6 billion to the State.

Unemployment Compensation Fund

The Unemployment Compensation Fund accounts for monies deposited from employers and employees contributions for unemployment compensation, amounts credited or advances made by the Federal Government, and amounts received from any other source. After consideration is given to any claim for refund of overpayment of contributions, the Division of Employment Security transfers the remainder to the Treasurer of the United States for credit to the State of New Jersey Unemployment Compensation Fund.

Component Units

Combined operating revenues and expenses for the State's component units for Fiscal Year 2006 amounted to \$8.6 billion and \$9.1 billion respectively. Total operations along with other financing sources and uses contributed to total combined net assets at fiscal year end of \$14.2 billion. The component units received \$1.5 billion in State appropriations during Fiscal Year 2006.

CAPITAL ASSET AND DEBT ADMINISTRATION

Administration of the State's capital assets falls under the purview of the Department of the Treasury. Capital assets are recorded under the State's General Fixed Asset System in the New Jersey Office of Management and Budget. The New Jersey Office of Public Finance is responsible for issuing the State's short-term and long-term obligations as well as overseeing the State's credit ratings.

The Fiscal Year 2006 capital budget included \$2.6 billion of State and matching Federal funds for both the Department of Transportation and the New Jersey Transit Corporation. The State's share, funded through the New Jersey Transportation Trust Fund Authority produced \$526.0 million for State highways, \$145.0 million for local highways, and \$534.0 million for mass transit. During Fiscal Year 2006, the New Jersey Economic Development Authority issued \$1.4 billion of School Facilities Construction Bonds to help fund the New Jersey Schools Construction Corporation's program. As of June 30, 2006, a total of \$5.5 billion of the \$8.6 billion school facilities construction bond program has been issued. For Fiscal Year 2006, another \$98.0 million of State funds were appropriated to the Garden State Preservation Trust for conservation purposes, while 4.0 percent of the Corporation Business Tax was appropriated to fund hazardous discharge cleanup, underground storage tank improvements, and surface water quality projects.

Capital Asset data is shown below. The State's investment in capital assets, net of accumulated depreciation, totaled \$16.8 billion as of June 30, 2006. Depreciation charges for Fiscal Year 2006 totaled \$536.8 million.

ECONOMIC CONDITION AND OUTLOOK

New Jersey's economy continues to expand at a slightly slower pace in 2006 after following 2005's steady recovery. The State added around 115,600 jobs between the bottom of the employment cycle in March 2003 and October 2006. Payroll employment increased at an average annual rate of 1.2 percent after growing at 0.5 percent last year. The level of payroll employment in October 2006 surpassed the last record level reported in December 2000 for the twenty-first month in a row.

New Jersey's employment increased by 0.6 percent in October 2006 from over a year ago adding close to 34,610 jobs and continuing the positive year over year growth trend for the thirty-third consecutive month. Employment gains were primarily spread across the service providing sectors with particularly strong growth in education and health services (13,840 jobs), and leisure and hospitality (10,540 jobs), followed by professional and business services (7,320 jobs). The total government sector added 5,770 jobs during this period.

However, the State continues to suffer from job losses in manufacturing (-11,080 jobs) and downsizing in the telecommunications industry (-1,700 jobs). Practically all of the job losses experienced in New Jersey were concentrated in these two areas. New Jersey's employment level has remained consistently above the 4.0 million mark for the last twenty-eight months.

The United States' Department of Commerce's Bureau of Economic Analysis preliminary report released on September 26, 2006 indicates that the 7.0 percent preliminary growth rate for New Jersey's personal income during the second quarter of calendar year 2006 came in above the revised growth rate of 6.3 percent for the first quarter of this year. Personal income for New Jersey is expected to grow at a steady pace through the rest of the year and through

2007. Despite current inflationary pressures due to surges in energy costs experienced earlier this year, inflation is expected to remain under control. A low interest rate environment has supported spending on housing and other consumer durables in the State. However, rising interest rates are expected to have a moderating influence on interest sensitive spending in the economy. Housing, once a robust sector, is expected to cool off in the months ahead with housing permits in 2006 to stay around 33,000 plus units, well below the estimated 38,000 plus units for 2005. Vehicle registrations for 2006 remain 1.5 percent below the last year's level. In part, the lack of large financial incentives and pent up demand are contributing to the downward trend.

Despite the near term uncertainties in the economic outlook, the State and the nation's economy are expected to continue expanding at a steady pace through the rest of 2006 and into 2007. The Federal Reserve's October 12, 2006 Beige Book on economic performance reported positively that economic activity continued to expand at a moderate pace. The latest New Jersey economic forecasts from Global Insight and Rutgers, which are based on preliminary State data through the second quarter of 2006, also project continued economic growth at a moderate pace.

New Jersey and the nation may experience further near-term slow growth and the expected pace of economic expansion may stall if consumers, investors, and businesses become more concerned about energy prices and geopolitical tensions. To a large extent, the future direction of economic expansion nationally and in New Jersey hinges on the assumptions of stable energy prices, stable geopolitical conditions, and supportive monetary and fiscal policies with no further turmoil in the financial markets and no drastic slowdown in the housing sector. However, the fundamentals of the State economic health remain stable and the long run prospects for modest economic growth of the State in 2006 and beyond are favorable.

**STATE OF NEW JERSEY
RECONCILIATION OF THE CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2006**

Net change in fund balance - total governmental funds \$ 3,257,267,296

Amounts reported for governmental activities in the statement of activities are different as a result of the following items:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 1,504,615,946	
Depreciation expense	(536,813,065)	
Excess of capital outlay over depreciation expense		967,802,881

Bond proceeds provide current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the statement of net assets. In the current period, proceeds were received from revenue and general obligation bonds. (2,747,659,898)

Some capital additions were financed through capital leases, certificates of participation and installment obligations. In governmental funds these arrangements are considered a source of financing, but in the statement of net assets, these arrangements are reported as a liability. (4,621,702,182)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year these amounts consist of:

Bond principal retirement	244,914,679	
Capital lease payments	171,603,500	
Installment obligation retirement	236,351,211	
Certificates of participation retirement	32,856,361	
Tobacco Settlement Financing Corp, Inc.	34,500,000	
Total long-term debt repayment		720,225,751

Because some revenues will not be collected for several months after the fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds. The Fiscal Year 2006 receivable balances increased by this amount. 78,666,498

Some revenues recorded in the Statement of Activities do not provide current financial resources and therefore are deferred in the fund perspective. 1,907,000

In the government-wide statements certain items are capitalized and amortized over a period of years, but are reported as expenditures or other financing sources and uses in the fund perspective. These activities consist of:

Increase in unamortized premiums	(296,472,862)	
Increase in deferral on refunding issues	71,561,855	
Increase in deferred issuance costs	96,413,838	
Decrease in bond discount	(2,924,073)	
Increase in unamortized interest on Capital Appreciation Bonds	2,638,921,323	
Total capitalized and amortized items		2,507,500,081

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures or reductions of revenue in governmental funds. These activities consist of:

Net decrease in accrued interest	(218,892,912)	
Increase in compensated absences, net pension obligation, and other	(1,206,979,586)	
Decrease in revenue refunds payable	745,000,000	
Decrease in pension assets	(15,678,492)	
Increase in other assets	5,194,415	
Total additional expenditures and revenue reductions		(691,356,575)

Change in net assets of governmental activities \$ (527,349,148)

**STATE OF NEW JERSEY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared primarily from accounts and records maintained by the State Comptroller. The financial data for the various public benefit corporations, authorities, commissions, colleges and universities has been derived from reports prepared by those organizations based on their independent accounting systems.

B. Financial Reporting Entity

For financial reporting purposes the State of New Jersey includes all fund types, departments, and agencies of the State, as well as boards, commissions, authorities, colleges and universities, for which the State is financially accountable. The following circumstances set forth the State's financial accountability for a legally separate organization:

1. The State is financially accountable if it appoints a voting majority of the organization's governing body and (a) it is able to impose its will on that organization or (b) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.
2. The State may be financially accountable if an organization is fiscally dependent on the State regardless of whether the organization has (a) a separately elected governing board or (b) a jointly appointed board.

Entities for which the State is financially accountable such as boards, commissions, authorities, colleges and universities are considered component units. These component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions to be reported in a manner similar to the balances and transactions of the State.

The following organizations comprise the State's component units. The Garden State Preservation Trust, the New Jersey Building Authority, the New Jersey Schools Construction Corporation, the Tobacco Settlement Financing Corporation, Inc., and the New Jersey Transportation Trust Fund Authority are blended component units since they provide services entirely, or almost entirely to the State. Additional pertinent information related to them is disclosed in the notes of the primary government. All other component units have been discretely presented. Descriptions of the discretely presented component units and addresses from which complete financial statements of the respective component units can be obtained is detailed in Note 19.

C. Government-wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report information of all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intragovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of net assets measures not just current assets and liabilities, but also long-term assets and liabilities such as capital assets (including infrastructure assets) and general long-term debt. The difference between the State's assets and its liabilities is its net assets. Net assets are displayed in three components - invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation. The amount of net assets that are restricted by enabling legislation is disclosed in Note 14. When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

The statement of activities is presented in a format that reports the net (expense) revenue of the State's individual functions. The net (expense) revenue format reports the relative financial burden of each of the State's functions on its taxpayers. This format identifies the extent to which each function of the government draws from the general revenues of the State or is self-financed through licenses, fees, permits, and other revenues.

Program revenues originate from the program or from parties other than the government's taxpayers or citizens as a whole and reduce the expenses of the function to be financed by general revenues. Categories of program revenues that are separately reported in the statement are charges for services, program specific operating grants and contributions, and program specific capital grants and contributions. Charges for services are revenues from exchange or exchange-like transactions with external parties that purchase, use, or directly benefit from the program's goods, services, or privileges. These revenues include fees charged for specific services, licenses and permits, and operating special assessments, as well as payments from exchange transactions with other governments. Program specific operating and capital grants and contributions are revenues from mandatory and voluntary nonexchange transactions with external parties that are restricted for use in a particular program. All other revenues are general revenues, including all taxes, even if levied for a specific purpose. A special item is a significant transaction or other event within the control of management that is either (1) unusual in nature, or (2) infrequent in occurrence. An extraordinary item is a transaction or other event that is both (1) unusual in nature and (2) infrequent in occurrence.

In the statement of activities, all expenses are reported by function except those that are special or extraordinary items. Each function reports direct expenses – those specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Some functions, such as government direction, management and control, include expenses that are indirect expenses of other functions. The State does not allocate indirect expenses to the other functions.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds, and component units. However, the fiduciary funds are not included in the government-wide statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus and Basis of Accounting

Government-wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The government-wide financial statements report all financial and capital assets (including infrastructure assets), short and long-term liabilities, revenues, expenses, gains, and losses using the economic resources measurement focus and the accrual basis of accounting. Activity and balances resulting from exchange and exchange-like transactions are recognized when the exchange takes place; those resulting from nonexchange transactions are recognized based on the provisions of GASB Statement No. 33.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the current financial resources measurement focus, only current assets and liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

In accordance with the modified accrual basis, revenues are recognized when they become susceptible to accrual; that is, when they become both measurable and available to finance expenditures of the fiscal period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. These revenues which are considered to be susceptible to accrual include amounts received during the twelve month period subsequent to June 30 that were earned as of June 30. Those revenues which are considered to be susceptible to accrual include sales tax, individual income taxes, corporate income taxes, and federal grants. Licenses, fees, permits and other sources are recognized when received since they normally are measurable only at that time. Revenue refunds payable are recorded as other liabilities. Unapplied overpayments of Corporation Business Tax are recorded when a final determination is made as to the ultimate disposition of the overpayments.

Expenditures are recognized when the related fund liabilities are incurred. Expenditures for compensated absences, claims, and judgments are recorded to the extent they would normally be liquidated with available financial resources. Disbursements for prepaid expenses, inventory items, and fixed assets are recorded when expenditures are incurred. Expenditures for principal and interest on general obligation long-term debt are recognized when due.

Proprietary Funds, Fiduciary Funds, and Component Units Financial Statements – The financial statements of the proprietary funds, fiduciary funds, and component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide statements previously described.

Each proprietary fund has the option under Governmental Accounting Standards Board (GASB), Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, to elect to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989 unless FASB conflicts with GASB. The State has elected to not apply FASBs issued after the applicable date.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The State's largest enterprise funds are the Unemployment Compensation Fund, the State Lottery Fund, and the Health Benefits Local Government Employers Program Fund.

The Unemployment Compensation Fund's principle ongoing operations consist of collecting contributions from employers and employees and the subsequent disbursement of monies to persons entitled to receive unemployment benefits. Collections and disbursements to eligible recipients are classified as operating revenues and expenses. The State Lottery Fund's principle ongoing operations, which are classified as operating revenues and expenses, consist of receipts from lottery ticket sales and subsequent disbursements of monies to lottery winners. The Health Benefits Local Government Employers Program Fund's principle ongoing

operations consist of member and employer contributions which are used to pay basic health care costs for employees of local governments.

In addition, the State records two other enterprise funds, the Dental Local Government Employers Program Fund and the Prescription Drug Local Government Employers Program Fund. For these funds, the principle ongoing operations, classified as operating revenues and expenditures, consist of member and employer contributions which are used to pay dental and prescription costs on behalf of eligible employees and their dependents.

E. Fund Accounting

The financial activities of the State are recorded in individual funds, each of which is deemed to be a separate accounting entity. The State uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts, which represent the fund's assets, liabilities, equity, revenues, and expenditures or expenses. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

1. Major Funds

The State reports the General Fund and the Property Tax Relief Fund as major governmental funds. The State also reports the Health Benefits Local Government Employers Program Fund, the State Lottery Fund, and the Unemployment Compensation Fund as major enterprise funds. Descriptions are as follows:

- a. General Fund – This fund accounts for all State revenues, not otherwise restricted by statute. The largest part of the total financial operations of the State is accounted for in the General Fund. Most revenues received from taxes, federal sources, and certain miscellaneous revenue items are recorded in this fund. The Appropriations Act enacted by the Legislature provides the basic framework for the operations of the General Fund.
- b. Property Tax Relief Fund – This fund accounts for revenues from the New Jersey Gross Income Tax. Revenues realized from the Gross Income Tax are dedicated by the State Constitution. All receipts from taxes levied on personal income of individuals, estates, and trusts must be appropriated exclusively for the purpose of reducing or offsetting property taxes. Annual appropriations are made from the fund, pursuant to formulas established by the Legislature, to counties, municipalities, and school districts.
- c. Health Benefits Local Government Employers Program Fund – This fund accounts for employee and employer contributions received to be used to provide basic health care services for employees of local governments.
- d. State Lottery Fund – This fund accounts for monies derived from the sale of lottery tickets and the subsequent payment of prizes to holders of winning lottery tickets.
- e. Unemployment Compensation Fund – This fund accounts for monies deposited from contributions of employers and employees for unemployment compensation, and amounts credited or advances made by the Federal government to be used to provide benefits to eligible unemployed workers.

2. Governmental Fund Types

- a. Special Revenue Funds - Are used to account for the proceeds of specific revenue sources (other than special assessments, private-purpose trusts, or major capital projects) that are legally restricted to expenditure for specific purposes such as education, environment and health care.
- b. Capital Projects Funds – Account for financial resources, usually general obligation bonds, to be used for the acquisition or construction of major capital facilities for State use such as mental health, educational and correctional facilities, and public transportation projects. Funds granted to other units of government are not classified as capital projects funds and are included as expenditures of special revenue funds.

3. Fiduciary Fund Types

- a. Pension (and other employee benefit) Trust Funds – These funds report resources that are required to be held in trust for members and beneficiaries of defined benefit pension plans, defined contribution plans, other post-employment benefit plans, and other employee benefit plans, such as the deferred compensation plan.
- b. Investment Trust Fund – This fund reports an investment pool that consolidates monies from municipalities, counties, school districts, and any other public body, corporate or politic.
- c. Private-purpose Trust Funds – These funds report all other trust arrangements for which principal and income benefit individuals, private organizations, or other governments.
- d. Agency Funds – These funds report resources held by the State in a purely custodial capacity. These funds typically involve only the receipt, temporary investment, and remittance of the resources to external parties.

4. Proprietary Fund Types

Enterprise Funds – These funds may be used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as enterprise funds if laws or regulations require that the activity's costs of providing services be recovered with fees and charges, rather than with taxes on similar revenues.

F. Appropriations and Outstanding Debt

The State Constitution provides that the Legislature may not create a debt (where total outstanding debt would exceed one percent of total appropriations for the year) unless such law has been submitted to the people at a general election and approved by a majority of the legally qualified voters. After approval by the electorate, and prior to any bond sale, the Legislature may make appropriations up to the legally authorized amount of such bonds, which enables the State to enter into contracts with vendors.

G. Assets

1. Cash and Cash Equivalents

Deposits encompass the State's cash on deposit with financial institutions and several cash equivalents, including certificates of deposit. All deposits including cash equivalents that are subject to federal or state depository insurance generally are classified as deposits. Only investments with an original maturity of three months or less are considered to be cash equivalents. See Note 3 for details.

2. Investments

Statutes of the State of New Jersey and regulations of the State Investment Council authorize the Division of Investment to invest in obligations of the U.S. Treasury, foreign governments, agencies, municipal or political subdivisions of the State, commercial paper, bankers acceptances, revenue obligations of public authorities, debt instruments of banks, collateralized notes and mortgages, certificates of deposit, repurchase agreements, equity and convertible equity securities, and other common types of investment securities.

In addition to the amounts invested directly, most of the funds included herein participate in the State of New Jersey Cash Management Fund wherein amounts also contributed by other units of government are combined into a large scale investment program. The Pension Trust Funds also participate in a Common Pension Trust Fund pool whereby amounts contributed by the various Pension Trust Funds are combined for the purpose of investment. Participation in the Cash Management Fund investment pool and the Common Pension Trust Fund investment pool by State funds is reflected as investments in the Balance Sheets of the respective funds. Amounts contributed to the Cash Management Fund investment pool by local governments and other entities which are not part of the State's reporting entity, are reflected as investments in the Balance Sheet of the State of New Jersey Cash Management Fund-External Portion.

Amounts contributed to the Cash Management Fund investment pool are recorded at cost, which approximates fair value. Any differences between cost and fair value for Cash Management Fund pool investments are immaterial. Other investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. See Note 4 for additional details.

3. Securities Lending Collateral

The Pension Trust Funds participate in securities lending programs with their custodian banks, whereby securities are loaned to brokers and, in return, the Pension Trust Funds have rights to the collateral received. All of the securities held in the Common Pension Trust Fund investment pool are eligible for the securities lending program. Collateral received may consist of cash, letters of credit, or government securities having a market value equal to or exceeding 102 percent (U.S. dollar denominated) or 105 percent (non-U.S. dollar denominated) of the value of the loaned securities at the time the loan is made. The contracts with the Common Pension Trust Fund investment pool custodian banks require them to indemnify the investment pool if the brokers fail to return the securities or fail to pay the investment pool for income distributions by the securities' issuers while the securities are on loan. The securities loans can be terminated by notification by either the broker or the investment pool. The term to maturity of the securities loans is generally matched with the term to maturity of the investment of cash collateral. As of June 30, 2006, the Pension Trust Funds have no aggregate credit risk exposure to brokers because the collateral amount held by the Pension Trust Funds exceeded the market value of the securities on loan. See Note 5 for additional details.

4. Receivables

Receivables in the State's governmental, fiduciary, and proprietary funds, Component Units - Authorities, and Component Units - College and University Funds are stated net of allowances for uncollectable amounts and primarily consist of federal revenues, taxes, loans, interest, contributions due from employers and members to the respective pension funds, mortgages, and other receivables. See Note 6 for details.

5. Capital Assets

Capital assets are tangible and intangible assets that are used in operations and that have initial useful lives that extend beyond a single reporting period. Capital assets are reported in the statement of net assets at cost or historical cost based on appraisals or other acceptable methods when historical cost information is not available. Donated fixed assets are recorded at estimated fair value at the time of donation. The State's capital assets consist of:

- a. All land, including parks, forests, easements, and development rights.
- b. Infrastructure assets such as roads, bridges, dams, highway lands, and rights-of-way.
- c. All general government buildings, including hospitals, care, and correctional facilities.
- d. Land improvements, machinery and equipment, and motor vehicles used in general operations, with unit costs above \$25,000, \$20,000, and \$30,000 respectively.
- e. Capital projects in the process of construction.

To measure depreciation expense, the State used the straight-line method, whereby the historical cost (or other capitalized amount) of depreciable assets, less their estimated salvage values, is allocated in equal annual amounts over the estimated useful lives of the assets. To estimate the useful lives of its capital assets, the State uses guidelines from industry organizations. There is no depreciation recorded for land, construction in progress, and rights-of-way.

Capital leases which are classified as capital assets are recorded in amounts equal to the lesser of the fair value of the asset or the present value of the future net minimum lease payments at the inception of the lease.

The State does not capitalize and depreciate works of art, historical treasures, and similar assets because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. Capital assets utilized in the government funds are recorded as expenditures in the governmental fund financial statements.

6. Interfund/Intrafund Transactions

Interfund Transactions - During the course of normal operations, the State has numerous routine transactions between funds, including expenditures, and transfers of resources to provide administrative services, program services, debt service, and compliance with legal mandates, such as legislation requiring the transfer of investment earnings from a capital project fund to the General Fund. In the fund financial statements, these transactions generally are recorded as transfers to/transfers from other funds and due to/due from other funds. Operating transfers represent legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended and do not represent reimbursement of expenses.

Intrafund Transactions - Intrafund transactions, as a result of contracts among departments within the same fund, are considered expenditures by the contractor and revenues by the contractee in the fund financial statements.

As a general rule, intrafund revenues and expenditures, interfund transfers, and interfund receivables and payables have been eliminated in the government-wide financial statements. An exception is the net residual amounts due between governmental and business-type activities, which is recorded as internal balances. Receivables from and payables to fiduciary funds are recorded in the statement of net assets as receivable from and payable to external parties.

H. Liabilities

1. Deferred Revenue

Deferred revenues at the fund level arise when potential revenue does not meet the available criterion for recognition in the current period. Deferred revenues also arise when resources are received by the State before it has a legal claim. In subsequent periods, when the revenue recognition criterion is met, or when the State has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Deferred revenues at the government-wide level arise only when the State receives resources before it has a legal claim to these resources.

Deferred revenue in the General Fund, at both levels, consists principally of amounts due from the Port Authority of New York and New Jersey.

2. Deferred Compensation

The State offers its employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. The Plan, which is administered by the Department of the Treasury, Division of Pensions and Benefits, permits participants to defer a portion of their salary until future years. Amounts deferred under the Plan are not available to employees until termination, retirement, death, or an unforeseeable emergency.

Under current Internal Revenue Service regulations, all monies that are deferred and any other assets or income of the Plan shall be held in trust for the exclusive benefit of the participating employees and their beneficiaries. The State has no liability for losses under the Plan but does have the duty of due care that would be required of an ordinary prudent investor.

The State's Employees' Deferred Compensation Plan is reported as a pension (and other employee benefits) trust fund in the fund financial statements. The Plan is fiduciary in nature, and thus is not reported in the government-wide financial statements.

3. Accumulated Unpaid Sick and Vacation Benefits

Cash payments for accumulated sick leave balances are made to retiring employees upon regular retirement. The payment is based on fifty percent of the employee's sick leave accumulation, at the pay rate in effect at the time of retirement up to a maximum of \$15,000. Employees separating from State service prior to retirement are not entitled to payments for accumulated sick leave balances. Cash payments for sick leave at retirement are made from annual legislative appropriations on a "pay-as-you-go" basis. Sick leave accumulations may also be used by an employee for a personal illness or injury as a means of continuing regular pay.

Employees annually earn 12 to 25 vacation days based on years of service and are permitted to carry over those days earned within a one-year period. The liability for accumulated employee sick leave and for accumulated vacation pay is reflected in the government-wide financial statements and the proprietary fund financial statements as noncurrent liabilities.

4. Other Long-term Obligations

In addition to accumulated unpaid sick and vacation benefits, other long-term obligations include general obligation bonds, revenue bonds, capital leases, installment obligations, certificates of participation, loans payable, and other liabilities of a long-term nature. The liability for long-term items described above is reflected in the government-wide financial statements and the proprietary fund financial statements as noncurrent liabilities, due in more than one year.

Bond and note premiums and discounts are amortized to interest expense based on the straight-line method. Capital appreciation bonds are reported at its net or accreted value rather than at face value. Bonds and notes payable are reported

net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges in other assets and are amortized over the term of the related debt.

In the governmental fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

I. Net Assets

1. Invested in Capital Assets, Net of Related Debt - This component of net assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted - Net assets are reported as restricted when constraints placed on net asset use are either: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of the other governments, or (2) imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted - Unrestricted net assets consist of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."
4. Held in Trust for Pension Benefits and Other Purposes – This is used to accumulate all active member, State, and other employer contributions and investment income from which all benefit payments are made; also used to accumulate resources received as a result of trust arrangements or to accumulate resources held for investment.

J. Fund Balances

1. Reserved for Encumbrances - Used to segregate a portion of fund balance to provide for expenditure upon vendor performance of purchase agreements.
2. Reserved for Surplus Revenue – Used to identify that portion of fund balance commonly called the "Rainy Day Fund" which represents excess revenues that have been set aside per P.L. 1990, c.44.
3. Reserved for Other - Used to earmark a portion of the fund balance to indicate it is either a resource currently unavailable for appropriation or expenditure, or a statutory restriction on current fund balance.
4. Unreserved - General Fund, Special Revenue Funds, and Capital Projects Funds - Represents the following:
 - a. Unreserved Designated - Continuing Appropriations - Used to represent that portion of fund balance which has been appropriated by the Legislature, as well as those portions of fund balance of non-budgeted governmental funds so designated by management.
 - b. Unreserved Designated - Unrealized Gains - Used to represent the portion of fund balance that resulted from the fair value reporting of investments, i.e., the difference between investments reported at fair value and the amortized cost of those investments.
 - c. Unreserved Undesignated – Used to represent that portion of fund balance resources available for appropriation.

K. Fiscal Year End Differences

The following component units have fiscal years that ended on December 31, 2005:

Component Units - Authorities

Casino Reinvestment Development Authority
New Jersey Development Authority for Small Businesses, Minorities
and Women's Enterprises
New Jersey Economic Development Authority
New Jersey Educational Facilities Authority
New Jersey Health Care Facilities Financing Authority
New Jersey Meadowlands Development Commission
New Jersey Redevelopment Authority
New Jersey Sports and Exposition Authority
New Jersey Turnpike Authority
South Jersey Port Corporation
South Jersey Transportation Authority

Special Revenue Funds

New Jersey Building Authority (blended component unit)
New Jersey Schools Construction Corporation (blended component unit)

NOTE 2 - OTHER ACCOUNTING DISCLOSURES

A. Change in Accounting Policy

The State has adopted GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation*, and GASB 47, *Accounting for Termination Benefits*. In addition, the State adopted GASB Technical Bulletin 2006-1, *Accounting and Financial Reporting by Employers and OPEB Plans for Payments from the Federal Government Pursuant to the Retiree Drug Subsidy Provisions of Medicare Part D*.

B. Restatement of Net Asset Balance

The net asset balance as of July 1, 2005 for the Unemployment Compensation Fund has been increased by \$8.6 million due to an overstated payable in the prior year.

The July 1, 2005 net asset balance for governmental activities has been restated from (\$7,845.0) million to (\$7,617.2) million to reflect an increase of \$227.8 million in opening land balance.

C. Deficit Fund Balances

It is anticipated that bond sales during Fiscal Year 2007 will relieve the current deficit fund balances in the Clean Waters Fund, the Cultural Centers and Historic Preservation Fund, the 2003 Dam, Lake and Stream Project Revolving Loan Fund, the 2003 Dam, Lake, Stream and Flood Control Project Fund, the 1992 Historic Preservation Fund, the 1995 Historic Preservation Fund, the State Land Acquisition and Development Fund, and the 2003 Water Resources and Wastewater Treatment Trust Fund.

D. Deficit Net Asset Balances

Calendar Year 2007 contribution rates will be increased in order to offset the deficit net asset balance of \$2.8 million in the Dental Local Government Employers Program Fund.

E. Joint Ventures

The Port Authority of New York and New Jersey
225 Park Avenue South
New York, NY 10003-1604

Joint ventures are independently constituted entities generally created by two or more governments for a specific purpose such as contracting and maintaining an interstate bridge. Pursuant to current financial reporting standards, the State does not record its equity in joint ventures. The only significant joint venture in which the State of New Jersey participates is the Port Authority of New York and New Jersey. Individually published financial statements may be obtained by writing the Port Authority of New York and New Jersey at the above mentioned address. Other joint ventures are immaterial.

The Port Authority is a municipal corporate instrumentality of the States of New York and New Jersey created by compact between the two states in 1921 with the consent of the Congress of the United States. It is authorized and directed to plan, develop, and operate terminals and other facilities of transportation and commerce, and to advance projects in the general fields of transportation, economic development, and world trade that contribute to promoting and protecting the commerce and economy of the Port District, defined in the compact, which comprises an area of about 1,500 square miles in both states, centering about New York Harbor. The Governor of each State appoints six of the twelve members of the governing Board of Commissioners, subject to confirmation by the respective State Senate. Each Governor has from time to time exercised the statutory power to veto the actions of the commissioners from their state.

The commissioners serve six-year overlapping terms as public officials without compensation. They establish Authority policy, appoint an Executive Director to implement it, and also appoint a General Counsel to act as legal advisor to the Board and to the Executive Director. The Authority undertakes only those projects authorized by the two states.

The compact envisions the Port Authority as being financially self-sustaining and, as such, it must obtain the funds necessary for the construction or acquisition of facilities upon the basis of its own credit, its reserve funds, and its future revenues. The agency has neither the power to pledge the credit of either state or any municipality nor to levy taxes or assessments.

Consolidated financial statements for the Port Authority including the Passenger Facility Charges Program for the fiscal year ended December 31, 2005 disclosed the following (expressed in millions):

Financial Position	
	<u>Combined Total</u>
Total Assets	\$ 19,786.4
Total Liabilities	<u>12,670.6</u>
Net Assets	<u><u>\$ 7,115.8</u></u>
Operating Results	
Operating Revenues	\$ 3,135.2
Operating Expenses	(2,087.9)
Depreciation and Amortization	(686.7)
Net Recoverables (Expenses) Related to the Events of September 11, 2001	<u>(3.4)</u>

Balance January 1, 2005	\$ 6,953.8
Net Income	<u>162.0</u>
Balance December 31, 2005	<u><u>\$ 7,115.8</u></u>

Except for Special Project Bonds, the Authority's debt is secured by its full faith and credit, its reserve funds, or a pledge of future revenues. Special Project Bonds are secured by a mortgage on the financed properties. At December 31, 2005, Port Authority debt consisted of the following (expressed in millions):

Bonds, Notes and Other Obligations	
Consolidated Bonds and Notes	\$ 8,328.6
Special Project Bonds	1,354.4
Operating Asset Financing	467.8
Capital Asset Financing	<u>945.2</u>

F. Other

In accordance with GASB Statement No. 14, *The Financial Reporting Entity*, the debt and assets of the New Jersey Building Authority have been reduced for presentation herein in the amount of \$686.1 million, the amount of the present value of future lease payments by the State to the New Jersey Building Authority as of December 31, 2005.

In accordance with GASB Statement 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, an additional \$461.7 million in federal grant revenues and economic planning, development, and security expenditures has been recorded.

NOTE 3 - CASH AND CASH EQUIVALENTS

All funds maintain their own individual bank account(s) except for the Casino Control, Casino Revenue, Gubernatorial Elections, Special Transportation, and Property Tax Relief Funds which are in the General Fund bank accounts. The balances of cash for these funds held in the General Fund, after receipt and disbursement transactions, are accounted for and reflected in the respective due from or due to accounts on the balance sheet presented in the fund financial statements.

New Jersey Revised Statutes (52:18-16.1) set the policy that the State Treasurer must follow when depositing State funds and for the collateralization of such funds. The relationship between the face amount of the collateral and the amount of a deposit is not statutory but is stipulated by the State Treasurer. All bank accounts in which the State Treasurer deposits funds must be collateralized. Securities pledged as collateral must consist of obligations of, or be guaranteed by, the United States or the State of New Jersey. Securities are pledged in the State Treasurer's name and held by a custodian bank under a custodian agreement.

Collateral requirements for demand accounts and time accounts for banks having less than \$15 million in State deposits per month require 100 percent coverage of the highest daily balance of the preceding month. For banks that have State deposits which total \$15 million or more per month, the amount of collateral required is 120 percent of the total average daily balance on deposit in the bank during each calendar quarter of the year. The State Department of the Treasury monitors the level of collateral required to be maintained by the banks.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires that the State disclose bank deposits that are subject to custodial credit risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateral securities that may be in the possession of an outside party. As of June 30, 2006 the State's bank balances amounted to \$302.7 million. Of these balances, \$38.8 was exposed to custodial credit risk as uninsured and uncollateralized.

NOTE 4 – INVESTMENTS

Statutes of the State of New Jersey and regulations of the State Investment Council authorize the Division of Investment to invest in domestic and international equities, obligations of the U.S. Treasury, government agencies, corporations, finance companies and banks, international government and agency obligations, Canadian obligations, New Jersey State and Municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, money market funds, private equities, real estate, other real assets and absolute return strategy funds. Investee institutions and organizations are prescribed by the statutes and regulations based on such criteria as minimum capital, dividend paying history, credit history, and other evaluation factors.

The purchase, sale, receipt of income, and other transactions affecting investments are governed by custodial agreements between the investing funds through the State Treasurer and custodian banks as agents for the funds. State laws and policies set forth the requirements of such agreements and other particulars as to the size of the custodial institution, amount of the portfolio to be covered by the agreements, and other pertinent matters.

Federal securities, including those held as collateral on repurchase agreements, are maintained at Federal Reserve Banks in Philadelphia and New York through the custodian banks, in trust for the State of New Jersey. A significant portion of corporate equity and debt securities are maintained by the Depository Trust Company (DTC) through the custodian banks in trust for the State of New Jersey.

Securities not maintained by the Federal Reserve Banks or DTC are in the name of a designated nominee representing the securities of a particular State fund which establishes the State fund's unconditional right to the securities. The custodian banks, as agents for the State funds, maintain internal accounting records identifying the securities maintained by the Federal Reserve Banks and the DTC as securities owned by or pledged to the State funds.

In addition to the amounts invested directly, most of the funds included herein participate in the State of New Jersey Cash Management Fund wherein amounts also contributed by other units of government are combined into a large scale investment program. The Pension Trust Funds also participate in a Common Pension Trust Fund pool whereby amounts contributed by the various Pension Trust Funds are combined for the purpose of investment. Participation in the Cash Management Fund investment pool and the Common Pension Trust Fund investment pool by State funds is reflected as investments in the Balance Sheets of the respective funds. Amounts contributed to the Cash Management Fund investment pool by local governments and other entities which are not part of the State's reporting entity, are primarily reflected as investments in the Statement of Fiduciary Net Assets, Investment Trust Fund.

Amounts contributed to the Cash Management Fund investment pool are recorded at cost, which approximates fair value. Any differences between cost and fair value for Cash Management Fund pool investments are immaterial. All other investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund and the Common Pension Funds. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Casino Control, Casino Revenue, Gubernatorial Elections, Special Transportation, and Property Tax Relief Funds do not maintain separate investment accounts. Since cash transactions are handled by and through the General Fund as described in Note 3, any available cash balances for these funds reside in the General Fund and are combined with other balances for either participation in the State of New Jersey Cash Management Fund or direct investment as part of the General Fund large scale investment program. Except for the Casino Revenue Fund and the Casino Control Fund, investment earnings for these funds accrue to the General Fund.

Approximately \$798.8 million of investments represents deposit fund contracts for future installment payments of lottery prizes due beyond one year from the balance sheet date. Lottery prizes are funded by the purchase of deposit fund contracts which, when matured, will provide amounts sufficient for future payment of installment prizes. Purchases of deposit fund contracts are recorded as an expenditure in the State Lottery Fund in the year of purchase. Annuity contracts are carried at their current contract values which are based upon their original purchase price adjusted for credited interest and amounts already received. The estimated fair value of annuity contracts approximates the carrying value reflected in the balance sheet. In the event of default in making future payments by the insurance company from which the contracts were purchased, the State Lottery Commission would be liable for such future payments.

Investments for all funds are as follows (expressed in millions):

	Amount Reported As Investments
Domestic equities	\$ 37,527.1
Domestic fixed income securities	35,369.2
International equities	13,009.8

The State's investments are subject to various risks. Among these risks are credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's) or Standard & Poor's Corporation (S&P). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States Treasury and government agency securities. State regulations require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue as follows:

Category	Minimum Moody's	Rating S&P	Limitation of Issuers' Outstanding Debt	Limitation of Issue	Other Limitations
Corporate obligations	Ba	BBB	25%	25%	-
U.S. finance company debt, bank debentures, and N.J. State and municipal debt	A	A	10%	10%	-
Canadian obligations	A	A	10%	10%	Purchase cannot exceed \$10 million
International government and agency obligations	Aa	AA	2%	10%	Not more than 1% of fund assets can be invested in any one issuer
Public Authority revenue obligations	A	A	-	10%	Not more than 2% of fund assets can be invested in any one issuer
Collateralized notes and mortgages	Baa	BBB	-	33%	Not more than 2% of fund assets can be invested in any one issuer
Commercial paper	P-1	A-1	-	-	-
Certificates of deposit and bankers acceptances (rating applies to international)	Aa/P-1	-	-	-	Uncollateralized certificates of deposit and bankers acceptances cannot exceed 10% of issuers primary capital
Guaranteed income contracts	P-1	-	-	-	A+ rating from A.M. Best for insurance companies
Money market funds	-	-	-	-	Not more than 10% of fund assets can be invested; limited to 5% of shares or units outstanding

In addition, the State sets individual issuer limits for commercial paper and certificates of deposit.

For securities exposed to credit risk in the fixed income portfolio, the following table discloses aggregate fair value, by major credit quality rating category at June 30, 2006 (expressed in millions):

The table does not include certain corporate obligations which do not have a Moody's rating totaling \$24.4 million with S&P rating of A. The Police and Firemen's Mortgages of \$965.0 million, repurchase agreements of \$38.5 million, corporate bonds of \$3.8 million, federal national mortgage association notes of \$1.5 million, and money market accounts of \$12.9 million are unrated.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State regulations provide limitations in the amounts that can be invested in fixed income securities maturing more than 12 months from date of purchase for finance company debt and New Jersey state and municipal general obligations. Maturities of corporate obligations and finance company debt must be less than two years, and bank debentures must be less than 25 months. Commercial paper must mature within 270 days. Certificates of deposits and bankers acceptances are limited to a term of one year or less. The maturity of repurchase agreements shall not exceed 15 days. The investment in a guaranteed income contract is limited to a term of ten years or less.

The following table summarizes the maturities of the fixed income portfolio at June 30, 2006 (expressed in millions):

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. As mentioned previously, the State's Pension Trust Funds participate in the Common Pension Trust Fund pool. The Common Pension Fund D account within this investment pool reflects the State's investments in global markets. The State can invest in securities of companies incorporated in one of thirty countries approved by the State Investment Council. The fair value of international preferred and common stocks and issues convertible into common stocks, when combined with the fair value of international government and agency obligations, cannot exceed 22 percent of the fair value of the Common Pension Fund D account. Not more than 5 percent of the value of the assets held by Common Pension Fund D account can be invested in companies incorporated in emerging market countries, and not more than 5 percent of the fair value of the emerging market securities can be invested in any one corporation. State regulations permit entering into foreign exchange contracts for the purpose of hedging the international portfolio. The State held forward contracts totaling approximately \$1.9 billion (with a \$14 million net exposure) at June 30, 2006. At June 30, 2006, the State had the following foreign currency exposure (expressed in millions of U.S. dollars):

Currency	Equities	Foreign Government Obligations	Total Fair Value
Australian dollar	\$ 387.3	\$ -	\$ 387.3
Canadian dollar	635.6	-	635.6

The State's interests in alternative investments may contain elements of credit, currency, and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition. State Investment Council regulations require that not more than 13 percent of the market value of the Pension Fund can be invested in alternative investments, with the individual categories of real assets, private equities, and absolute return strategy investments limited to 5 percent, 7 percent, and 5 percent, respectively. The Common Pension Fund E account within the Common Pension Trust Fund pool reflects the State's alternative investments. Not more than 5 percent of the market value of Common Pension Fund E may be committed to any one partnership of investment, without the prior written approval of the Council. Common Pension Fund E cannot own more than 25 percent of any individual investment. The investments in Common Pension Fund E cannot comprise more than 20 percent of any one investment manager's total assets.

NOTE 5 - SECURITIES LENDING COLLATERAL

The securities lending collateral is subject to various risks. Among these risks are credit risk, concentration of credit risk, and interest rate risk. Agreements with the lending agents require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue as follows:

Category	Minimum Rating		Limitation of Issuers Outstanding Debt	Limitation of Issue	Other Limitations
	Moody's	S&P			
Corporate obligations	A3	A-	25%	25%	-
U.S. finance company debt and bank debentures	A2	A	10%	10%	-
Collateralized notes and mortgages	Aaa	AAA	-	33%	Limited to not more than 10% of the assets of the collateral portfolio
Commercial paper	P-1	A-1	-	-	-
Certificates of deposit and bankers acceptances	Aa3/P-1	-	-	-	Uncollateralized certificates of deposit and bankers acceptances cannot exceed 10% of issuers primary capital
Guaranteed income contracts	P-1	-	-	-	Limited to 5% of the assets of the collateral portfolio
Money market funds	-	-	-	-	Limited to 10% of the assets of the collateral portfolio

Maturities of corporate obligations, U.S. finance company debt, bank debentures, collateralized notes and mortgages, and guaranteed income contracts must be less than 25 months. Commercial paper maturities cannot exceed 270 days. Repurchase agreement maturities cannot exceed 15 days. Certificates of deposit and bankers acceptances must mature in one year or less.

The collateral for repurchase agreements is limited to obligations of the U.S. Government or certain U.S. Government agencies.

Total exposure to any individual issuer is limited, except for U.S. Treasury and Government Agency Obligations. For money market funds, the total amount of shares or units purchased or acquired of any money market fund shall not exceed five percent of the shares or units outstanding of said money market fund. For Collateralized Notes and Mortgages, not more than two percent of the assets of the collateral portfolio shall be invested in the obligations of any one issuer. For Guaranteed Income Contracts, the total investment in any one issuer shall be limited to 2.5 percent of the collateral portfolio. The State sets individual issuer limits for Commercial Paper and Certificates of Deposit. For Corporate Obligations, U.S. Finance Company Debt, Bank Debentures and Bankers Acceptances, exposure to any one issuer shall be limited to the following percentages of the collateral portfolio in accordance with the issuer's rating from Moody's: Aaa (4%), Aa (3%), and A (2%).

For securities exposed to credit risk in the collateral portfolio, the following table disclosures aggregate market value, by major credit quality rating category at June 30, 2006 (expressed in millions):

	Moody's Rating

As of June 30, 2006, the Pension Funds had received cash collateral of \$14.2 billion for outstanding loaned investment securities having market values of \$13.8 billion. In addition, as of June 30, 2006, the Pension Funds loaned investment securities having market values of \$1.5 million, against which it had received non-cash collateral with a current value of \$1.5 million, which is not reflected in the accompanying financial statements.

NOTE 6 - RECEIVABLES

Fiduciary funds' receivables are not disclosed in the statement of net assets. However, these receivables are disclosed in the fund financial statements and consist primarily of amounts due from employers and employees and accrued earnings on investments. Receivables presented in the statement of net assets are described below

A. Federal

Federal government grant awards are established against State appropriations. Most Federal government receivables are comprised of amounts expended against grant awards, the expenditure of which is the basis of reimbursement. Since all amounts due from the Federal government are considered to be collectible, no allowance has been established for doubtful collections. Also see Note 20 - Contingent Liabilities.

These Federal receivables are reported in conformance with generally accepted accounting principles as defined in Statement No. 2 - *Grant, Entitlement and Shared Revenue Accounting and Reporting by State and Local Governments* published by the National Council on Governmental Accounting. Inasmuch as encumbrances do not constitute expenditures, and since recognition of grants and entitlements as revenue is primarily based on expenditures, there is an additional \$2.9 billion of Federal government awards consisting of encumbrances and appropriation balances which are considered unearned and unrecorded as of June 30, 2006.

Federal receivable balances in the Unemployment Compensation Fund (\$737.9 million) represent unemployment contributions transferred to the Federal Reserve Bank for deposit in the Federal Unemployment Trust Fund. All monies are invested by the Federal Government and interest earnings are credited to the Unemployment Compensation Fund.

B. Departmental

Departmental accounts receivable of \$3.1 billion include amounts which were substantially collected within the one month period subsequent to June 30 and include most major tax revenues. Amounts included in these receivables but not collected within the one month period subsequent to June 30 are deemed to be collectible, and are reflected net of allowances (\$320.0 million).

C. Loans

Loans receivable of \$1.1 billion are reduced by allowances of \$16.0 million and include \$1.0 billion due from local units of government and other recipients for environmental projects, \$44.6 million loaned for economic development within local units of government, and \$13.3 million loaned for housing and mortgage assistance.

D. Other

Other receivables totaling \$1.9 billion are reduced by allowances of \$669.3 million and include tax receivables due of \$501.8 million, \$208.1 million due from the Port Authority of New York and New Jersey, \$115.4 million due from proceeds of Motor Vehicle Commission bonds which are held by the trustee, \$126.8 million due from tobacco companies, and contributions due from employers and members to the Health Benefits Local Government Employers Program Fund of \$83.4 million.

NOTE 7 - CAPITAL ASSETS

A summary of capital assets and related accumulated depreciation by category as of June 30, 2006 is as follows (expressed in millions):

* The July 1, 2005 balance has been restated by \$227.8 million to reflect revised land amounts.

A. Items Not Capitalized and Depreciated

The State possesses certain capital assets that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. Examples of these assets include, but are not limited to statues, monuments, forts, lighthouses, and various capitol related furnishings. Collections, such as historical documents, artifacts, works of art, rare library books, and antique furnishings are not capitalized. These assets are exempted from capitalization as the State maintains the collections for reasons other than financial gain; the collections are protected, kept unencumbered, cared for and preserved; and the collections are subject to an organizational policy requiring that the proceeds from sales of collection items be used to acquire other items for collections.

B. Depreciation and Useful Lives

Capital assets are depreciated using the straight line method, with one half of the year's depreciation charged in the year of acquisition and in the year of disposal. The State assigned useful lives that were most suitable for the particular assets. Estimated useful lives were assigned as follows:

<u>Asset</u>	<u>Years</u>
Land improvements	10-25
Building and improvements	12-45
Machinery and equipment	5-15
Infrastructure	4-70

Depreciation was charged to functions of the primary government as follows (expressed in millions):

	<u>Amount</u>
Public safety and criminal justice	\$ 73.3
Physical and mental health	6.1
Educational, cultural, and intellectual development	20.4
Community development and environmental management	10.8
Economic planning, development, and security	10.9

Government direction, management, and control	22.3
Special government services	12.3
	<u>\$ 536.8</u>

NOTE 8 - INTERFUND TRANSACTIONS

During the course of normal operations, the State has numerous routine transactions between funds, including interfund loans, expenditures, and transfers of resources to provide administrative services, program services, debt service, and compliance with legal mandates, such as legislation requiring the transfer of investment earnings from a capital project fund to the General Fund. In the fund financial statements, these transactions generally are recorded as transfers in/transfers (out) and due to/due from other funds. Operating transfers represent legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended and do not represent reimbursement of expenses.

A. Due From/Due To Other Funds

The balances of current interfund receivables and payables at June 30, 2006 are presented below (expressed in millions):

*The New Jersey Schools Construction Corporation (a blended component unit included in the Non-Major Governmental Funds) has a fiscal year end of December 31, 2005. Due to the State having a June 30, 2006 fiscal year end, transactions between the New Jersey Schools Construction Corporation and the General Fund have created an imbalance within the transfers.

NOTE 9 - SHORT-TERM DEBT

Tax and Revenue Anticipation Notes

The State issues short-term debt instruments in the form of tax and revenue anticipation notes in advance of income tax and corporation business tax collections, depositing the proceeds in the General Fund. These notes are used to provide effective cash management to fund the imbalances that occur between the collection of revenues and the disbursement of appropriations of the General Fund and Property Tax Relief Fund. The \$2.65 billion of borrowings was repaid in full prior to the end of the fiscal year. Short term debt activity for the year ended June 30, 2006 was as follows (expressed in millions):

	<u>Outstanding July 1, 2005</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Outstanding June 30, 2006</u>
Tax and Revenue Anticipation Notes	\$ --	\$ 2,650.0	\$ (2,650.0)	\$ --

NOTE 10 – LONG-TERM OBLIGATIONS

The State's long-term debt is divided into bonded and non-bonded categories. Bonded categories include General Obligation Bonds, Revenue Bonds Payable, certain Capital Leases, Installment Obligations, Certificates of Participation, Unamortized Premium, Tobacco Settlement Financing Corporation, Inc. Bonds, Unamortized Deferral on Refunding, and Unamortized Interest on Capital Appreciation Bonds. Non-bonded categories include Accumulated Sick and Vacation Payable, certain Capital Leases, Loans Payable, Net Pension Obligation, Other, and Deposit Fund Contracts.

C. General Obligation Bonds

The State is empowered by voters to authorize, issue, and incur debt subject to certain constitutional restrictions. General obligation bond acts are both legislatively and voter-approved and are backed by the State's full faith and credit. As of June 30, 2006 the State had \$3.1 billion of State general obligation bonds outstanding with another \$742.4 million of bonding authorization remaining from various State general obligation bond acts. The amount provided by the State's General Fund for debt service payments for Fiscal Year 2006 was \$169.3 million.

The State has refunded various outstanding general obligation bonds. Refunding bond proceeds are used to purchase and deposit United States Treasury Obligations – State and Local Government Series into a separate irrevocable trust fund held by a trustee. The investments and the fixed earnings that accrue are sufficient to fully service the defeased debt until it is called or matures. For financial reporting purposes, the refunded debt is considered defeased at the time the refunding bonds have been issued. Therefore, the refunded debt is removed as a liability from the State's long-term obligations.

During Fiscal Year 2006, the State refunded various general obligation debt by issuing \$203.3 million of General Obligation Refunding Bonds. As a result, \$213.0 million of refunded bonds were defeased and the liability was removed from the State's long-term obligations. This refunding was undertaken to reduce total debt service payments over the next 17 years by \$12.3 million. An economic loss of \$2.6 million was realized on the transaction. This refunding transaction provided a positive net present value savings of \$5.1 million. As of June 30, 2006, the amount of defeased general obligation debt outstanding, but removed from the State's long-term obligations amounted to \$1.1 billion.

D. Revenue Bonds Payable

This debt classification represents bond issuances whose segment of debt service is derived solely from legally restricted revenues. Revenue bonds include debt issued by the New Jersey Building Authority, the Garden State Preservation Trust, and the New Jersey Transportation Trust Fund Authority. During Fiscal Year 2006, these three Authorities issued \$7.3 billion of bonds, of which, \$1.9 billion were refunding bonds. As a result, \$2.0 billion of bonds have been refunded and are now considered defeased. The liability has been removed from the State's long-term obligations. Total debt service payments over the next nine years were increased by \$527.5 million which resulted in an economic loss of \$90.6 million. These refunding transactions provided a positive net present value savings of \$36.1 million. As of June 30, 2006, the State had \$13.0 billion of revenue bonds outstanding. Another \$7.1 billion of bonding authorization remains.

E. Capital Leases (Bonded)

Capital Leases represent long-term contractual obligations that the State has entered into for the purpose of utilizing office space for State operations and program usage. This includes the design, acquisition, and construction or renovation of facilities such as the Trenton Office Complex and Greystone Psychiatric Hospital.

F. Installment Obligations

Installment obligations represent agreements between the State and several authorities which have issued bonds for the purpose of purchasing or constructing facilities to be rented by the State or to provide financing for other State projects. The State agrees to make payments equal to the corresponding authority's debt service, subject to and dependent upon appropriations being made from time to time by the State Legislature. At the conclusion of the term of the installment obligation agreement, title to the various facilities is transferred to the State. During Fiscal Year 2006, these authorities issued \$2.0 billion of bonds, of which, \$209.2 million were refunding bonds. As a result, \$209.7 million of bonds have been refunded and are now considered to be defeased. The liability has been removed from the State's long-term obligations. Total debt service payments over the next five years were reduced by \$7.7 million which resulted in an economic loss of \$7.5 million. Fiscal Year 2006 refunding transactions provided a positive net present value savings of \$7.6 million. The State's installment obligations outstanding as of June 30, 2006 total \$16.9 billion. Total authorized but unissued installment obligations equal \$3.3 billion as of June 30, 2006.

G. Certificates of Participation

These obligations represent several Lines of Credit that were drawn on to finance State equipment needs through the State's Master Lease Program.

H. Unamortized Premium

GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, requires bond premiums to be deferred and amortized over the life of the refunding bonds.

I. Tobacco Settlement Financing Corporation, Inc. (TSFC)

In November, 1998 the State entered into a Master Settlement Agreement with participating cigarette manufacturers, 46 states, and six other United States jurisdictions in the settlement of certain smoking-related litigation. During Fiscal Year 2003, the State sold to the newly established TSFC, the State's right, title, and beneficial ownership interest in the State's right to receive tobacco settlement rights under the Master Settlement Agreement and decree of Final Judgment. In return, the TSFC issued \$3.46 billion of bonds to pay for the tobacco settlement rights. Proceeds of the two bond issuances were used to fund General Fund expenditures during Fiscal Year 2003 and Fiscal Year 2004.

During Fiscal Year 2003, the TSFC was presented as a discreet component unit of the State. Since then, the State adopted GASB Technical Bulletin No. 2004-1, *Tobacco Settlement Recognition and Financial Reporting Issues*. As a result, the TSFC is required to be shown as a blended component unit of the State. Bonds issued by the TSFC are the sole obligation of the TSFC. The State is not liable for any debt issued by the TSFC nor is the debt dependent on any dedicated stream of revenue generated by the State.

J. Unamortized Deferral on Refunding

Under GASB Statement No. 23, *Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities*, unamortized deferral on refunding shows the actual gain or loss on refunding transactions. Gains are shown as an asset and amortized over the shorter of the life of the refunding bonds or the bonds that were refunded. As of June 30, 2006 the State has issued \$2.3 billion of refunding bonds that are to be amortized over a time period of three years to 23.1 years. GASB Statement No. 23 defines a gain/loss as the total outstanding amount of the old bonds minus the new refunding bonds issued minus the cost of issuance on the new refunding bonds. The refunding bonds have a total loss of \$604.5 million.

K. Unamortized Interest on Capital Appreciation Bonds

Unamortized Interest on Capital Appreciation Bonds represents the unaccreted interest value on zero coupon bonds that have been issued.

L. Accumulated Sick and Vacation

Pursuant to GASB Statement No. 16, *Accounting for Compensated Balances*, Accumulated Sick and Vacation payable represents the liability due to employees for unused sick and vacation time.

M. Capital Leases (Non-Bonded)

Capital Leases represent long-term contractual obligations that the State has entered into for the purpose of utilizing office space for State operations and program usage. Examples of non-bonded capital leases include motor vehicle inspection stations, State government office buildings, and group homes for the developmentally disabled.

N. Loans Payable

The New Jersey Automobile Insurance Guaranty Fund has received a \$1.3 billion loan from the New Jersey Property-Liability Insurance Guaranty Association. The loan was made in an effort to depopulate the New Jersey Automobile Insurance Guaranty Fund and to help satisfy its unfunded liability.

O. Net Pension Obligation

Net Pension Obligation (NPO) represents a \$3.0 billion pension fund liability due to the State Police Retirement System, the Consolidated Police and Firemen’s Retirement System, and the Teachers’ Pension and Annuity Fund. Financial reporting requirements for net pension fund obligations fall under the purview of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*.

P. Other

This obligation represents unamortized long-term claims which are required to be reported under NCGA Statement No. 1 as a general long-term liability of the State. This includes health (\$140.6 million), dental (\$8.0 million), and Medicaid benefit claims (\$269.1 million of which \$126.5 million is federally reimbursable) which have been incurred but not reported.

Q. Proprietary Funds/Business-type Activities

Large Lottery prizes are paid out to winners over a period of multiple years. Current Lottery proceeds are used to purchase deposit fund contracts which will provide sufficient amounts for future payment of installment prizes. Future payments of installment prizes in the present value of \$798.8 million are recorded as non-current liabilities in both the fund financial statements and the government-wide statements.

R. Moral Obligation Bonds

The authorizing legislation for certain State entities provides for specific budgetary procedures with respect to certain obligations issued by these entities. Pursuant to such legislation, a designated official is required to certify any deficiency in debt service funds maintained to meet payments of principal and interest on the obligations, and a State appropriation in the amount of the deficiency is to be made. However, the State Legislature is not legally bound to make an appropriation. Bonds issued pursuant to authorizing legislation of this type are sometimes referred to as “moral obligation” bonds. There is no statutory limitation on the amount of “moral obligation” bonds which may be issued by eligible State entities. Currently, bonds issued by the South Jersey Port Corporation, the New Jersey Housing and Mortgage Finance Agency, and the Higher Education Student Assistance Authority fall under this category. Furthermore, the New Jersey Housing and Mortgage Finance Agency and the Higher Education Student Assistance Authority have not had a deficiency in their respective debt service funds which required the State to appropriate funds.

The State provides the South Jersey Port Corporation with funds to cover all debt service and property tax requirements when the Corporation’s earned revenues are anticipated to be insufficient to cover these obligations. On December 1, 2005, the Corporation certified that it would be unable to provide sufficient funds from operations for debt service, and therefore, required a State appropriation for Fiscal Year 2006 in the amount of \$6.5 million.

NOTE 11 - RISK MANAGEMENT AND INSURANCE COVERAGE

The State is self-insured and self-administered for tort, workers’ compensation, and automobile liability claims. As of June 30, 2006 no liability for unpaid claims has been established since the amount of loss cannot be reasonably estimated, however, any unpaid claims are not expected to be material. Claims are reported as expenditures in the General Fund in the year they are paid. Amounts expended for tort, workers’ compensation, and automobile liability claims for Fiscal Year 2006 and Fiscal Year 2005 are detailed below (expressed in millions):

<u>Type of Claim</u>	<u>Fiscal Year 2006</u>	<u>Fiscal Year 2005</u>
Tort	\$ 16.4	\$ 7.5
Workers' compensation	25.5	21.6
Automobile	3.5	1.8

Property exposure is handled by a commercial insurance carrier. There were no reductions in commercial insurance coverage during the fiscal year ended June 30, 2006. No settlements exceeded commercial insurance coverage during each of the past three fiscal years. The State does not participate in any risk pools.

The State has obtained a financial guaranty policy insurance commitment to cover potential permanent losses on investments by non-state participants in the State of New Jersey Cash Management Fund-External Portion (Investment Trust Fund). The State is liable for reimbursement to the issuer of the financial guaranty policy insurance commitment for any payments made. This financial guaranty policy insurance commitment expires on July 1, 2016.

NOTE 12 – DERIVATIVES

A. Interest Rate Swap Agreements

The State has obtained long-term financing in the form of voter-approved General Obligation Debt and other obligations for which voter approval is not needed and has not otherwise been sought. Non-voter approved long-term financings include debt obligations such as revenue bonds, certificates of participation, and installment obligations. The State pays debt service on these debt obligations pursuant to a State contract it enters into with the issuer, subject to annual appropriations made by the State Legislature. These debt obligations include, but are not limited to, certain bonds issued through State public authorities such as the New Jersey Building Authority, the New Jersey Economic Development Authority, the New Jersey Sports and Exposition Authority, and the New Jersey Transportation Trust Fund Authority. In connection with certain bonds issued, or anticipated, through these public authorities, the State has entered into Interest Rate Exchange Agreements (Swap Agreements). As of June 30, 2006 the State has 29 active swap agreements with 12 swap providers for a combined notional amount of \$4.8 billion.

B. Interest Rate Swap Agreements – Synthetic Fixed Rate

The State acting through its public authorities entered into 20 swap agreements in connection with the issuance of \$2,422.5 million in variable rate bonds. In each case, the State, acting through its public authorities, issued bonds bearing interest at a variable rate and simultaneously entered into one or more swap agreements with various swap providers. Under the terms of the swap agreements, the State will pay a fixed rate on a notional amount of bonds outstanding while the swap counterparty pays a variable rate on the same notional amount which is anticipated to, over time, match the variable interest rate on the bonds. In effect, the State has locked in its interest cost at the fixed rate on the swap agreement, at a lower interest cost than issuing fixed rate bonds. A description of each transaction follows:

<u>Issuer/Series</u>	<u>Notional Amounts (\$ Millions)</u>	<u>Effective Date</u>	<u>Synthetic Fixed Rate</u>	<u>Variable Rate Received</u>
<u>NJ Sports and Exposition Authority</u>				
1992 Series C	\$ 176.530	11/12/92	5.860 %	Floating rate on the bonds
2002 Series B-1, B-2	93.575	1/29/02	4.500	The lesser of the weighted average of the BMA Index or 70% of the 1-Month USD-LIBOR
<u>NJ Transportation Trust Fund Authority</u>				
2003 Series B-1	85.000	1/30/03	3.565	67% of the weekly USD-LIBOR
2003 Series B-2	85.000	1/30/03	3.537	67% of the weekly USD-LIBOR
2003 Series B-3	50.000	1/30/03	3.630	67% of the weekly USD-LIBOR
2003 Series B-4	62.500	1/30/03	3.675	67% of the weekly USD-LIBOR

2004 Series J (2 swap agreements)	500.000	9/1/04	4.063	75% of 1-Month USD-LIBOR
2005 Series M (2 swap agreements)	500.000	3/1/05	4.176	75% of 1-Month USD-LIBOR
2005 Series Q (2 swap agreements)	500.000	3/1/06	4.296	75% of 1-Month USD-LIBOR
<u>NJ Building Authority</u>				
2003 Series A (6 swap agreements)	184.900	8/20/03	3.640	62% of 1-Month USD-LIBOR + 20 Basis Points

The bonds and the related swap agreements listed above have final maturities ranging from November 1, 2014 through March 1, 2031. The total current notional amount of \$2,353.4 million matches the amount of variable rate bonds that are outstanding as of June 30, 2006. Under the swap agreements, the State pays the counterparties a fixed payment at ranging from 3.537 percent to 5.860 percent and receives a variable payment as computed for each associated transaction as shown above. The swap provider calculates the variable rate, as well as the dollar amount that is owed by the swap counterparty. The remarketing agent or the auction agent, depending on the transaction, determines the variable interest rate that is applied to the bonds.

During the fiscal year ended June 30, 2006 the New Jersey Economic Development Authority terminated its \$78.2 million swap agreement for its Business Employment Incentive Program that had an effective date of November 1, 2005. The New Jersey Economic Development Authority would have remitted an amount equal to the fixed rate of 5.366 percent per annum while it would

have received a variable rate equal to 100 percent of the 1-month USD-LIBOR plus seven basis points. The swap agreement was terminated upon the issuance of the Business Employment Incentive Program Bonds, 2005 Series A on October 25, 2005.

The New Jersey Sports and Exposition Authority, during the fiscal year ended June 30, 2006 defeased \$10.835 million and \$8.430 million of its outstanding State Contract Bonds, 2002 Series B-1 and State Contract Bonds, 2002 Series B-2, respectively, and terminated equivalent notional amounts of the related swap agreements.

C. Interest Rate Swap Agreements – Forward Strategy

The State of New Jersey has entered into nine swap agreements in association with \$2.3 billion of future bond transactions involving the New Jersey Economic Development Authority's Business Employment Incentive Program and School Facilities Construction Program. The purpose of entering into the swap agreements was to take advantage of "locking in" historically low fixed interest rates for bonds that are to be issued in the future. The swap agreements have allowed the State the opportunity to limit its interest rate exposure.

The New Jersey Economic Development Authority entered into two forward interest rate swap agreements associated with \$500 million in bonds anticipated to be issued under the Educational Facilities Construction and Financing Act in Fiscal Year 2006. The interest rate swap agreements were designed to commence on September 1, 2005 and to terminate on September 1, 2030. Under the agreements, the Authority would pay a fixed rate of 4.22 percent per annum to the counterparty and receive a variable rate equal to 75 percent of the one-month LIBOR. On September 15, 2005 the Authority amended these interest rate swap agreements to extend the commencement date to September 1, 2007, from September 1, 2005. This is the latest anticipated delivery date of bonds that are expected to be issued under the Educational Facilities Construction and Financing Act. As part of the amendment, the final swap amortization date has been extended to September 1, 2032 and the fixed rate of interest to be paid by the Authority has been changed to 4.40 percent.

A description of each swap agreement is as follows:

New Jersey Economic Development Authority

<u>Issuer/Series</u>	<u>Notional Amounts (\$ Millions)</u>	<u>Effective Date</u>	<u>Synthetic Fixed Rate</u>	<u>Variable Rate Received</u>
Business Employment Incentive Program	\$ 78.700	11/1/06	5.7650 %	100% of 1-Month USD-LIBOR+ 7 Basis Points
School Facilities Construction Program	250.000	9/1/06	4.4074	75% of 1-Month USD-LIBOR
School Facilities Construction Program	250.000	9/1/06	4.4074	75% of 1-Month USD-LIBOR
School Facilities Construction Program	500.000	3/1/07	4.3692	75% of 1-Month USD-LIBOR
School Facilities Construction Program	250.000	3/1/07	4.6345	67% of 1-Month USD-LIBOR+ 40 Basis Points
School Facilities Construction Program	250.000	3/1/07	4.6425	67% of 1-Month USD-LIBOR+ 40 Basis Points
School Facilities Construction Program	250.000	3/1/07	4.6430	67% of 1-Month USD-LIBOR+ 40 Basis Points
School Facilities Construction Program	250.000	9/1/07	4.3990	75% of 1-Month USD-LIBOR
School Facilities Construction Program	250.000	9/1/07	4.3990	75% of 1-Month USD-LIBOR

D. Interest Rate Swap Agreements - Fair Value

Between November 12, 1992 and June 30, 2006, the State, acting through its public authorities, has entered into 29 swap agreements. During this time, general interest rates have declined since the execution of the swap agreements. As a result, the net present value of the State's entire portfolio as of June 30, 2006 is a negative of \$45.9 million. A breakdown of this amount is shown below:

Authority/Issuer	Net Present Value (\$ Millions)
NJ Building Authority	\$ 1.076
NJ Economic Development Authority	
Business Employment Incentive Program	1.720
School Facilities Construction Program	(26.632)
NJ Sports and Exposition Authority	(36.434)
NJ Transportation Trust Fund Authority	14.341
Total	\$ (45.929)

The amounts shown above are the amounts that the State would pay to swap counterparties in the event that all the State's swap agreements were terminated. The swap agreements could only be terminated for certain events of default listed in each swap agreement document, including a swap counterparty default. In the event of a swap counterparty default, it is likely that this event would be remedied through the assignment to an alternate swap counterparty.

E. Interest Rate Swap Agreements - Credit Risk

The swap agreement contracts require that each swap counterparty shall have a credit rating from at least one nationally recognized statistical rating agency that is within the two highest investment grade categories. Ratings, which are obtained from any other nationally recognized statistical rating agencies for such swap counterparty shall also be within the three highest investment rated categories, or the payment obligations of the swap counterparty shall also be unconditionally guaranteed by an entity with such credit ratings. The swap agreements also require that should the credit rating of a swap counterparty fall below the rating required, that the obligations of such swap counterparty shall be fully and continuously collateralized by direct obligations of, or obligations the principal and interest on which are guaranteed by, the United States of America, at the agreed upon collateral threshold levels pursuant to the Credit Support Agreement. The collateral threshold levels are adjusted based on counterparty ratings as set forth in the Credit Support Agreement. Even though some of the mark to market values of the swap agreements have become positive, all of the swap counterparties' ratings have remained in the two highest investment grade categories. Therefore, no collateral posting is required.

F. Interest Rate Swap Agreements - Basis Risk

The swap agreements expose the State to basis risk should the relationship between LIBOR and actual variable rate payments diverge. The effect of this difference in basis is indicated by the difference between the anticipated variable rate and the actual variable rate resulting from future market conditions.

G. Interest Rate Swap Agreements - Termination Risk

Each swap agreement contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The schedule to the Master Agreement includes "additional termination events", providing that the swap agreements may be terminated if either the State's or a swap counterparty's credit quality rating falls below certain levels. The State or the swap counterparties may terminate the swap agreements if the other party fails to perform under the terms of the contract. If one or more of the swap agreements is terminated, the related variable rate bonds would no longer be hedged and the State would no longer be effectively paying a synthetic fixed rate with respect to those bonds. Also, if at the time of termination the swap agreement has a negative fair value, the State would incur a loss and would be required to settle with the swap counterparty at the swap agreement's fair value.

NOTE 13 - OTHER LIABILITIES

Other liabilities presented in the statement of net assets consist principally of revenue refunds payable to taxpayers of \$258.0 million.

NOTE 14 - FUND BALANCES/NET ASSETS RESTRICTED BY ENABLING LEGISLATION

A. Reserved - Other

In the fund financial statements, reservations of fund balance classified as "reserved - other" consist principally of legally mandated escrow balances and long-term loans and receivables due from individuals, municipalities, and authorities that are considered not currently available for expenditure in subsequent accounting periods. In addition, balances have been reserved in the following funds for purposes described below.

General Fund

The \$368.1 million reservation in the General Fund that is considered not currently available for appropriations consists principally of monies not available for expenditure because the asset is not an available financial resource for current appropriations (\$246.8 million), a portion of bond receipts which is earmarked to pay debt service in the next fiscal year (\$46.4 million), a portion of the 4 percent constitutionally dedicated Corporation Business Tax revenues reserved for environmental cleanup projects in excess of allowable expenditures (\$37.8 million), potential Federal disallowance for the Department of Human Services' claims (\$21.0 million), and other items (\$16.1 million).

Fund for Support of Free Public Schools

New Jersey statutes provide for the establishment of a school bond reserve within this fund. The school bond reserve consists of two accounts, the old school bond reserve account and the new school bond reserve account. The old school bond reserve account shall be funded in an amount equal to at least 1.5 percent of the aggregate issued and outstanding bonded indebtedness of counties, municipalities, or school districts for school purposes for all such indebtedness issued prior to July 1, 2003. The new school bond reserve account shall be funded in an amount equal to at least 1 percent of the aggregate issued and outstanding bonded indebtedness of counties, municipalities, or school districts for school purposes for all such indebtedness issued on or after July 1, 2003, exclusive of bonds for debt service, which is provided by State appropriations. Accordingly, \$103.3 million has been reserved as of June 30, 2006.

New Jersey Schools Construction Corporation

In this fund, \$3.7 million has been reserved for Qualified Zone Academies and prepayments.

New Jersey Transportation Trust Fund Authority

An amount of \$42.5 million has been reserved for future debt service payments.

Tobacco Settlement Financing Corporation, Inc.

The \$367.4 million reservation represents money reserved for future debt service payments on outstanding bonds payable.

B. Unreserved

In the fund financial statements, unreserved consists of designated for continuing appropriations, designated for unrealized gains, and undesignated.

General Fund

The \$2.5 billion unreserved balance consists of \$1,279.0 million designated for continuing appropriations, \$27.1 million designated for unrealized gains, and \$1,216.7 million undesignated.

Property Tax Relief Fund

The \$10.1 million unreserved balance consists of \$7.5 million designated for continuing appropriations and \$2.6 million undesignated.

C. Net Assets Restricted by Enabling Legislation

As of June 30, 2006, the Statement of Net Assets reported \$5.6 billion of restricted net assets. Net assets are restricted when constraints from external parties can compel the State to comply with legally enforceable enabling legislation requiring that resources be used for a specific purpose.

NOTE 15 – OTHER FINANCING SOURCES/USES-OTHER

The following items were recorded as other financing sources (uses) –other in the fund financial statements (expressed in millions):

	<u>General Fund</u>	<u>Non-Major Funds</u>
Installment obligations issued	\$ 1,713.9	\$ --
Refunding debt issued	412.5	1,899.5

Payments to escrow agents on refunding bonds	(453.1)	(2,096.9)
Other Financing Sources (Uses) - Other	<u>\$ 2,057.6</u>	<u>\$ 73.5</u>

NOTE 16 – OPERATING LEASES

The State of New Jersey has commitments to lease certain buildings and equipment under arrangements representing operating leases. Future minimum rental commitments for noncancelable operating leases as of June 30, 2006 are as follows (expressed in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2007	\$ 38.2
2008	21.1
2009	16.4
2010	12.2
2011	8.5
2012-2016	20.7
2017-2021	3.0
2022	<u>0.5</u>
Total Future Minimum Lease Payments	<u>\$ 120.6</u>

NOTE 17 – RETIREMENT SYSTEMS

The State of New Jersey sponsors and administers the following contributory defined benefit public employee retirement systems (retirement systems) covering substantially all state and local government employees:

Consolidated Police and Firemen's Pension Fund (CPFPPF)--established in January 1952, under the provisions of N.J.S.A. 43:16 to provide coverage to municipal police and firemen who were appointed prior to July 1, 1944. The fund is a closed system with no active members.

Judicial Retirement System (JRS)--established in June 1973, under the provisions of N.J.S.A. 43:6A to provide coverage to all members of the State judiciary system. Membership is mandatory for such employees with vesting after 5 years of successive service as a judge and 10 years in the aggregate of public service.

Police and Firemen's Retirement System (PFRS)--established in July 1944, under the provisions of N.J.S.A. 43:16A to provide coverage to substantially all full time county and municipal police or firemen and State firemen appointed after June 30, 1944. Membership is mandatory for such employees with vesting occurring after 10 years of membership.

Prison Officers' Pension Fund (POPF)--established in January 1941, under the provisions of N.J.S.A. 43:7 to provide coverage to various employees of the State penal institutions who were appointed prior to January 1, 1960. The fund is a closed system with no active members. New employees of the State penal institutions are enrolled in the Police and Firemen's Retirement System.

Public Employees' Retirement System (PERS)--established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all full time employees of the State or any county, municipality, school district, or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

State Police Retirement System (SPRS)--established in July 1965, under the provisions of N.J.S.A. 53:5A to provide coverage to all uniformed officers and troopers of the State Police in the State. Membership is mandatory and vesting occurs after 10 years of membership.

Teachers' Pension and Annuity Fund (TPAF)--established in January 1955, under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time certified teachers or professional staff of the public school systems in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for post-retirement health care coverage.

Other Pension Funds

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of the State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The state or local governmental employers do not appropriate funds to SACT.

The State also administers the Central Pension Fund (CPF) which is a single-employer noncontributory defined benefit plan for special groups which are not included in other State-administered systems. There are no employees covered by CPF.

The State also administers the Pensions Adjustment Fund (PAF) which provides cost of living increases, equal to 60 percent of the change in the average consumer price index, to eligible retirees in some State-sponsored pension systems which are the CPFPPF, POPF, and CPF. This benefit is funded by the State as benefit allowances become payable.

The cost of living increase for PFRS, PERS, TPAF, SPRS, and JRS are funded directly by each of the respective systems and are considered in the annual actuarial calculation of the required State contribution for the system.

According to state law, all obligations of each retirement system will be assumed by the State of New Jersey should any retirement system be terminated.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems, funds, and trust. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Basis of Accounting

The financial statements of the Funds are prepared on the accrual basis of accounting. Employer contributions are recognized when payable to the Funds. Benefits or refunds are recognized when due and payable in accordance with the terms of the Funds.

Investment Valuation

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair values.

The State of New Jersey, Department of the Treasury, Division of Investment, issues publicly available financial reports that include the financial statements of the State of New Jersey Cash Management Fund, Common Pension Fund A, Common Pension Fund B, Common Pension Fund D, and Common Pension Fund E. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Investment, P.O. Box 290, Trenton, New Jersey 08625-0290.

Significant Legislation

Chapter 108, P.L. 2003, effective July 1, 2003 provided that the State Treasurer shall reduce the normal and accrued liability contributions payable by employers other than the State, excluding the contribution payable from the benefit enhancement fund, to a percentage of the amount certified annually by the retirement system, which for PERS will be as follows: for payments due in the State fiscal year ending June 30, 2005, 20 percent; for payments due in the State fiscal year ending June 30, 2006, not more than 40 percent; for payments due in the State fiscal year ending June 30, 2007, not more than 60 percent; and for payments due in the State fiscal year ending June 30, 2008, not more than 80 percent. The law provides that local employers' PFRS normal and accrued liability contributions shall be as follows: for payments due in the State fiscal year ending June 30, 2004, 20 percent; for payments due in the State fiscal year ending June 30, 2005, not more than 40 percent; for payments due in the State fiscal year ending June 30, 2006, not more than 60 percent; and for payments due in the State fiscal year ending June 30, 2007, not more than 80 percent.

Chapter 42, P.L. 2002 permitted local government units to issue refunding bonds to retire unfunded accrued liability resulting from early retirement benefits under TPAF, PERS, or PFRS, effective July 12, 2002.

Contribution Requirements

The contribution policy is set by laws of the State of New Jersey and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The various pension funds provide for employee contributions based on percentages ranging from 3.00 percent to 8.50 percent of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in all Funds except the SACT, CPF, and PAF. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the JRS, PFRS, PERS, SPRS, and TPAF. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premiums.

During the year ended June 30, 2006 for CPFPF and TPAF, which are cost sharing plans with special funding situations, and for JRS, POPF, and SPRS, which are single employer plans, annual pension cost equals annual required contribution. For PFRS and PERS, which are cost sharing multi-employer defined benefit pension plans, the annual pension cost differs from the annual required contribution due to the enactment of Chapter 114, P.L. 1997.

The annual pension cost for the fiscal year ending June 30, 2006 and related information, including a summary of the significant actuarial methods and assumptions used by the Funds, are presented on the following pages. Note that the assumption regarding post-retirement benefit increases has not been disclosed because post-retirement health care benefits are currently being funded on a modified pay-as-you-go basis and not on an actuarial reserve basis.

NOTE 18 - POST-RETIREMENT MEDICAL BENEFITS

P.L. 1987, c.384 and P.L. 1990, c.6 required the Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2006, there were 71,719 retirees receiving post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994 with an additional contribution beginning in Fiscal Year 1996 to maintain a medical reserve that increases by one half of one percent of the active State payroll each year.

Commencing on July 1, 1997, State employees attaining 25 years of service credit after this date in a State administered retirement system and those who retire on disability who elect the Traditional Plan shall be subject to premium sharing based on the negotiated contracts.

The State made post-retirement medical (PRM) contributions of \$555.3 million for TPAF and \$211.5 million for PERS in Fiscal Year 2006.

P.L. 1977, c.136, provides for the State's General Fund to pay health benefits on a pay-as-you-go basis for all enrolled retired State employees, regardless of retirement date, under two provisions. The first is for State employees whose pensions are based on 25 years or more of credited service (except those who elect a deferred retirement). The second is for retired State employees who are eligible for a disability retirement regardless of years of service. PERS and TPAF retirees are excluded from the provisions set forth in P.L. 1977, c.136 since their health benefits coverage is funded through each of their respective pension fund systems. The State contributed \$76.9 million for 5,965 eligible retired members for Fiscal Year 2006.

The State is also responsible for the cost attributable to P.L. 1992 c.126 which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$100.7 million toward Chapter 126 benefits for 10,777 eligible retired members in Fiscal Year 2006.

P.L. 1997, c.330 provides State paid post-retirement health benefits to qualified retirees of the Police and Firemen's Retirement System and the Consolidated Police and Firemen's Pension Fund and to dependents of qualified retirees. The State is responsible for

80 percent of the premium for the category of coverage elected by the retiree under the State managed care plan or a health maintenance organization participating in the program, whichever provides the lower charge. The State contributed \$19.6 million in the current year to provide benefits under Chapter 330 to qualified retirees.

NOTE 19 - COMPONENT UNITS

A. Authorities

The accounts of public authorities, private not-for-profit corporations, and similar entities (hereinafter called Authorities) in the accompanying financial statements are derived from their most recently issued annual financial statements. Authorities are legally separate entities that are not operating departments of the State.

The activities of the Garden State Preservation Trust, the New Jersey Building Authority, the New Jersey School Construction Corporation, the New Jersey Transportation Trust Fund Authority, and the Tobacco Settlement Financing Corporation have been blended into the financial activities of the State as special revenue funds. All other Authorities have been discretely presented as major and nonmajor component units in the State's financial statements in accordance with GASB Statement No. 14, *The Financial Reporting Entity*.

The Authorities are managed independently, outside the appropriated budget process, and their powers generally are vested in a governing board. Authorities are established for a variety of purposes for the benefit of the State's citizenry, such as financing economic development, public transportation, low cost housing, environmental protection, and capital development for health and education. In addition, they are not subject to State constitutional restrictions on the incurrence of debt, which apply to the State itself, and may issue bonds and notes within legislatively authorized amounts.

The Governor, with the approval of the State Senate, appoints the members of the board of most Authorities. Authorities generally submit annual reports to the Governor, the State Legislature, and the State Comptroller on their operations and finances accompanied by an independent auditor's report thereon. Authorities also submit to the Governor and the State Legislature annual budget information on operations and capital construction. The Governor has from time to time exercised the statutory power to veto actions.

These component units are included in the State's reporting entity because of the significance of their operational or financial relationship with the State. Descriptions of the discretely presented Authorities and addresses from which separately issued audited financial statements may be obtained are provided below:

Casino Reinvestment Development Authority (N.J.S.A. 5:12-153)
1014 Atlantic Avenue
Atlantic City, New Jersey 08401
www.njcrda.com

The Authority was created to maintain public confidence in the casino gaming industry as a tool of urban redevelopment throughout New Jersey and to directly facilitate the redevelopment of blighted areas by providing eligible projects in which licensees (casinos) can invest. The Authority encourages investment in, or financing of, projects which are made as part of a comprehensive plan to improve blighted areas or are targeted to benefit low through middle income residents. The Authority is also responsible for promoting the tourist industry in New Jersey, especially in Atlantic County.

New Jersey Commerce, Economic Growth and Tourism Commission (P.L. 1998, c.44)
20 West State Street, P.O. Box 820
Trenton, New Jersey 08625-0820
www.newjerseycommerce.org

The New Jersey Commerce, Economic Growth and Tourism Commission's mission is to serve as the lead agency for promoting job growth, business growth, and economic development in New Jersey.

New Jersey Development Authority for Small Businesses, Minorities and Women's Enterprises (P.L. 1985, c.386)
36 West State Street, P.O. Box 990
Trenton, New Jersey 08625
www.fieldus.org/directory/records/335.htm

The New Jersey Development Authority for Small Businesses, Minorities and Women's Enterprises was established to provide financial assistance to small businesses and businesses owned by minorities and women in order to encourage entrepreneurship within these groups.

New Jersey Economic Development Authority (N.J.S.A. 34:1B-4)
36 West State Street, P.O. Box 990
Trenton, New Jersey 08625
www.njeda.com

The New Jersey Economic Development Authority is authorized to arrange long-term, low-interest financing, and other forms of assistance to private firms and companies for the purpose of maintaining and expanding employment opportunities and enlarging state and local government's tax base.

New Jersey Educational Facilities Authority (N.J.S.A. 18A:72A-4)
103 College Road East
Princeton, New Jersey 08540-6601
www.njefa.com

The New Jersey Educational Facilities Authority was established to provide a means for New Jersey public and independent colleges and universities to construct additional facilities through the financial resources of a public authority empowered to sell its debt instruments (bonds, notes, and other obligations). The Authority may finance academic and auxiliary facilities for the public and independent institutions of higher education.

New Jersey Environmental Infrastructure Trust (N.J.S.A. 58:11B-4)
3131 Princeton Pike - Building 6, P. O. Box 440
Trenton, New Jersey 08625
www.njeit.org

The New Jersey Environmental Infrastructure Trust was established to make loans and guarantee debt incurred by local government units in financing the cost of wastewater treatment system projects. The Trust may from time to time issue bonds, notes, or other obligations in any principal amounts that the Trust deems necessary, up to an aggregate principal amount of \$600 million, in order to provide sufficient funds to carry out its statutory purpose.

New Jersey Health Care Facilities Financing Authority (N.J.S.A. 26:2I-4)
South Clinton and Yard Avenues, Station Plaza Bldg. #4
P.O. Box 366
Trenton, New Jersey 08625
www.njhcffa.com

The New Jersey Health Care Facilities Financing Authority was established to provide low-cost capital financing for the public and private not-for-profit health care institutions of the State.

New Jersey Higher Education Student Assistance Authority (N.J.S.A. 18A:71A-1 et. seq.)
4 Quakerbridge Plaza, P.O. Box 547
Trenton, New Jersey 08625-0540
www.hesaa.org

This Authority was established to provide a single agency for the coordination and delivery of student financial assistance in the State. The Authority serves as the Guaranty Agency for the Federal Family Education Loan (FFEL) Program and the issuer of State of New Jersey College Loans to Assist State Students (NJCLASS) supplementary loan program. The authority also administers the State Tuition Aid Grants (TAG), scholarship programs, and the State College Savings Program, known as the New Jersey Better Educational Savings Trust (NJBEST).

New Jersey Housing and Mortgage Finance Agency (N.J.S.A. 55:14K-4)
637 South Clinton Avenue, P. O. Box 18550
Trenton, New Jersey 08650-2085
www.state.nj.us/dca/hmfa

The Housing and Mortgage Finance Agency makes mortgage and improvement loans to nonprofit and limited dividend sponsors for the construction or major rehabilitation of rental apartment housing for low and moderate-income families and senior citizens. In addition to providing financing, the Agency monitors and provides technical support in the planning, construction, and management of all developments in its portfolio. Its mortgage loan funds come from the sale of tax-exempt revenue bonds.

In promoting the availability of affordable homeownership financing, the Agency also provides low-interest mortgage and improvement loans to eligible residents throughout the State. Proceeds from the sale of tax-exempt mortgage revenue bonds enable the Agency to finance the purchase and improvement of one to four unit residences.

New Jersey Meadowlands Commission (N.J.S.A. 13:17-5)
1 De Korte Park Plaza
Lyndhurst, New Jersey 07071
www.meadowlands.state.nj.us

The New Jersey Meadowlands Commission is authorized and empowered to be the planning and zoning agency for the reclaiming, planning, development, redevelopment, and enhancement, including open space acquisition of the 19,730 acre Meadowlands District. The District consists of waterways, tidal flow lands, woodlands, marsh, and meadows contained within portions of 14 municipalities and two counties; Bergen and Hudson. Through the issuance, if needed, of tax-exempt bonds and notes, the Commission is able to raise needed funds.

New Jersey Redevelopment Authority (P.L. 1996, c.62)
150 West State Street, P. O. Box 790
Trenton, New Jersey 08625
www.state.nj.us/njra

The New Jersey Redevelopment Authority provides assistance in the redevelopment and revitalization of New Jersey cities. The Authority provides financial, managerial, and technical assistance to persons, firms, or corporations that wish to undertake industrial, commercial, or civic projects within qualified municipalities.

New Jersey Sports and Exposition Authority (N.J.S.A. 5:10-4)
50 Route 120
East Rutherford, New Jersey 07073
www.njsea.com

The New Jersey Sports and Exposition Authority is engaged in the business of owning, operating, and managing sports, entertainment, wagering, and convention facilities throughout the State. It has been responsible for the financing, construction, and management of the Meadowlands Racetrack and Giants Stadium, both of which opened in 1976, and the Continental Airlines Arena which opened in July, 1981. The Authority is charged with the responsibility to own, operate, and build various facilities, located in the State, including the Atlantic City Convention and Visitors Authority, for athletic and entertainment events, trade shows, and other expositions, and is authorized to issue bonds and notes and to provide the terms and security thereof.

New Jersey Transit Corporation (N.J.S.A. 27:25-1)
One Penn Plaza East
Newark, New Jersey 07105
www.njtransit.com

New Jersey Transit Corporation (NJ TRANSIT) is empowered to acquire, own, operate, and contract for the operation of public transportation services. NJ TRANSIT receives operating subsidies principally from the State by legislative appropriation and the Federal Government by defined formula grants under the Federal Transit Administration. These government grants are used to support the operation of public transportation services. NJ TRANSIT provides these services through the operation of bus and commuter rail subsidiaries. NJ TRANSIT also contracts with several motor bus carriers for certain transportation services. Under these contracts, NJ TRANSIT has the right to set fares and coordinate service levels and schedules. In addition, NJ TRANSIT contracts with the National Railroad Passenger Corporation (Amtrak) for the use of Amtrak's northeast corridor, including propulsion costs and the cost of maintaining right-of-way.

New Jersey Turnpike Authority (N.J.S.A. 27:23-3)
P. O. Box 1121
New Brunswick, New Jersey 08903
www.state.nj.us/turnpike

The New Jersey Turnpike Authority is authorized to construct, maintain, repair, and operate turnpike projects at locations established by law. Furthermore, the Authority may issue turnpike revenue bonds or notes of the Authority, subject to prior approval by the Governor and by either or both the State Treasurer and Comptroller, payable solely from tolls and other revenues of the Authority. Effective July 9, 2003, the New Jersey Highway Authority merged and became part of the New Jersey Turnpike Authority.

New Jersey Water Supply Authority (N.J.S.A. 58:1B-4)
P. O. Box 5196
Clinton, New Jersey 08809
www.njwsa.org

The New Jersey Water Supply Authority is authorized to acquire, finance, construct, and operate water supply systems. The Authority currently operates and maintains the Delaware and Raritan Canal and the Spruce Run/Round Valley Reservoir water supply system. The Authority may, upon the request of a municipality, county, the State, or agencies thereof, enter into a contract to provide services for any water system project. All projects undertaken by the Authority shall conform to the recommendations of the New Jersey Statewide Water Supply Plan. Bonds of the Authority may be issued to finance these projects and the debt service on the bonds is payable from the revenues and other funds of the Authority.

South Jersey Port Corporation (N.J.S.A. 12:11A-1)
Second and Beckett Streets
Camden, New Jersey 08101
www.southjerseyport.com

The South Jersey Port Corporation is empowered to establish, acquire, construct, rehabilitate, improve, operate, and maintain marine terminals in the South Jersey Port District, including Mercer, Burlington, Camden, Gloucester, Salem, Cumberland, and Cape May counties. To this end, the Corporation may issue tax-exempt revenue bonds subject to the provisions and restrictions of its Marine Terminal Bond Resolution, which mandates the distribution of funds to various Port Corporation funds.

South Jersey Transportation Authority (P.L. 1991, c.252)
Farley Service Plaza, P. O. Box 351
Hammonton, New Jersey 08037
www.sjta.com

The South Jersey Transportation Authority is authorized and empowered to acquire, construct, maintain, operate, and support transportation projects including the Atlantic City Expressway and the Atlantic County International Airport. The Authority may issue revenue bonds or notes of the Authority subject to prior approval by the Governor and by either or both the State Treasurer and State Comptroller, payable solely from tolls and other revenues of the Authority.

B. Colleges and Universities

As a result of P.L. 1986, c.42 and c.43, State colleges, whose revenues and expenditures were previously accounted for in the General Fund of the State of New Jersey, were given autonomous status effective July 1, 1987.

The financial statements of the colleges and universities have been prepared in accordance with GASB Statement No. 35, *Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities*. These component units are included in the State’s reporting entity due to the significance of their operational or financial relationships and fiscal dependency with the State. The colleges and universities are funded through State appropriations, tuition, federal grants, and private donations and grants. Since the colleges and universities are similar in nature and function, their statements have been discretely presented in the statement of net assets and the statement of activities. They are presented in two categories, major and nonmajor. This distinction is determined by the relative size of an entity’s assets, liabilities, revenues, and expenditures in relation to the total of all the colleges and universities. Pursuant to GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, all of the State colleges and universities’ financial statements include the financial activity related to foundations and other similar organization within the colleges and universities.

Separately issued independent audited financial statements may be directly obtained from the colleges and universities. Addresses and web-sites of the colleges and universities are presented below:

NOTE 20 - CONTINGENT LIABILITIES

General Fund

At any given time, there are various numbers of tort, contract, and other claims and cases pending against the State, State agencies, and employees, seeking recovery of monetary damages. The claims filed can represent significant amounts and include, but are not limited to, issues regarding pensions and education funding. The majority of these claims have historically proven to be substantially less value than originally claimed. The State does not formally estimate its reserve representing potential exposure for these claims and cases. As of June 30, 2006, the exact amount involved in these legal proceedings is not fully determinable.

Unapplied overpayments of Corporate Business Tax are recorded when a final determination is made as to the ultimate disposition of the overpayment. These overpayments only become a liability based upon a taxpayer filing a request for the refund. As of June 30, 2006 there was approximately \$191.0 million of overpayments.

New Jersey Lawyers' Fund for Client Protection

Claims of approximately \$17.3 million have been filed against this Fund by individuals and companies seeking reimbursement for losses resulting from the alleged dishonest conduct by members of the Bar of the State of New Jersey. Under present rules and regulations of the Fund, the total maximum amount that may be awarded from this Fund is \$5.1 million. The ultimate disposition of these claims is not determinable at this time.

New Jersey Spill Compensation Fund

As of June 30, 2006, various claims have been filed against the Fund by third parties for damages caused by spills. These claims have not reached the stage in the judicial process where reasonable amounts have been established, and therefore, are not classified as liabilities under generally accepted accounting principles.

Property Tax Relief Fund

Unapplied overpayments of Gross Income Tax are recorded when a final determination is made as to the ultimate disposition of the overpayment. These overpayments only become a liability based upon a taxpayer filing a request for the refund. As of June 30, 2006 there were approximately \$571.0 million of overpayments.

Sanitary Landfill Facility Contingency Fund

Various claims totaling approximately \$24.0 million have been filed against this Fund by individuals, local municipalities, and school districts. In addition, there are a number of similar claims for unspecified dollar amounts which are pending. The ultimate disposition of these claims is not determinable at this time.

University of Medicine and Dentistry of New Jersey – Self Insurance Reserve Fund

The State has the ultimate liability for tort and malpractice claims in excess of the resources of the Fund.

Capital Projects Funds

Due to delays in construction and design problems, various claims for damages have been filed with respect to the Special Transportation Fund in the amount of \$47.3 million. Fund management is presently evaluating the claims. There has been no determination as to the ultimate amount for which this Fund will be liable.

Federal Programs

Under the terms of various grant awards, expenditures from Federal funds are subject to audit. As of June 30, 2006, audits of expenditures for Fiscal Year 2006 and prior years may not be completed. Disallowances which may result from these audits are not determinable at this time. As of June 30, 2006, it is management's opinion that disallowances, if any, would not be material.

NOTE 21 – SUBSEQUENT EVENTS

Short-term Debt

For Fiscal Year 2007, the State authorized the issuance of \$2.5 billion in short-term debt. The aggregate principal is to be used to provide effective cash flow management to fund the imbalances that occur in the collection of revenues and the disbursement of appropriations. On October, 5, 2006 the State issued \$1.75 billion of tax and revenue anticipation notes that bear an interest rate of 4.5 percent per annum. The notes have a June 22, 2007 final maturity. The State has another \$750.0 million remaining in Fiscal Year 2007 borrowing authorization, should the State need additional funds in order to manage its cash flow more effectively.

Long-term Debt

On August 17, 2006 the New Jersey Building Authority issued \$48.7 million of its State Building Revenue Bonds, 2006 Series A. The proceeds are to be used to construct an approximate 275,000 square foot public health, agricultural, and environmental laboratory to be located in Ewing Township. Interest on the bonds is payable semi-annually on June 15 and December 15, commencing on December 15, 2006. Final maturity on the bonds is June 15, 2027.

On October 26, 2006 the New Jersey Educational Facilities Authority issued its Revenue Refunding Bonds, Higher Education Capital Improvement Fund Issue, Series 2006 A in the aggregate principal amount of \$155.5 million. The proceeds will refund \$10.5 million of the Authority's Series 2000 A Bonds, \$11.4 million of the Authority's Series 2000 B Bonds, \$102.8 million of its Series 2002 A Bonds, and \$22.8 million of its Series 2004 A Bonds. Interest on the bonds is payable semi-annually on each March 1 and September 1, beginning on March 1, 2007. Final maturity on the bonds is September 1, 2024.

On November 2, 2006 the New Jersey Economic Development Authority, in accordance with the Educational Facilities Construction and Financing Act, issued \$100.0 million of School Facilities Construction Bonds 2006 Series S, and \$500.0 million of School Facilities Construction Bonds 2006 Series R. Proceeds are to be used for the purpose of partially funding the school facilities construction program. The 2006 Series S Bonds were issued as fixed rate debt. Interest on the bonds is payable semi-annually on March 1 and September 1, commencing on March 1, 2007. The final maturity on the 2006 Series S Bonds is September 1, 2036. The 2006 Series R Bonds were issued as variable rate debt and have a final maturity of September 1, 2031.

STATE OF NEW JERSEY
NOTES TO REQUIRED SUPPLEMENTAL INFORMATION

Budgetary Process

The Appropriations Act provides annual budgets for the General Fund and certain special revenue funds (Casino Control, Casino Revenue, Gubernatorial Elections, and Property Tax Relief Funds). The State Legislature enacts the Budget through passage of specific departmental appropriations, the sum of which may not exceed estimated resources. It is a constitutional requirement that the Budget be balanced. The Governor certifies the revenues. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to State Legislative override. Once passed and signed, the Appropriations Act becomes the State's financial plan for the coming fiscal year. Spending authority contained in the Appropriations Act may be revised by supplemental appropriations approved by both the State Legislature and the Governor. Expenditures are presented on the accompanying budgetary basis financial statements by statewide program classifications, not by the legal level of budgetary control. Detail at the departmental level is presented on the accompanying Schedules of Appropriations and Expenditures.

For the General Fund and budgeted special revenue funds, budgetary control (legal control) is maintained within the department (as indicated on the organization chart shown in the Transmittal Letter) at the appropriation line item level. Program classifications represent a lower level, operating program function, consisting of closely related activities with identifiable objectives or goals. Program classification examples include Water Supply Management, Forestry Management, Shellfish and Marine Fisheries Management, in the Department of Environmental Protection. Revisions to the Appropriations Act during the fiscal year may be effected with certain executive and legislative branch approvals. In accordance with the "General Provisions" section of the Annual Appropriations Act, the Executive Branch may amend the budget within a department with the approval of the Director of the Office of Management and Budget. Under specific conditions, additional approval by the Office of Legislative Services is required. Only the State Legislature, however, may transfer appropriations between departments. Transfers within a department are permitted within certain guidelines and Executive Branch approval.

Appropriations are authorized for expenditure during the fiscal year and for a period of one month thereafter, and unencumbered appropriations lapse at the end of the fiscal year, unless otherwise specified by the Appropriations Act.

The State's budgetary basis of accounting differs from that utilized to present fund financial statements in conformance with generally accepted accounting principles (GAAP). The main differences between the budgetary basis and the GAAP basis used to present fund financial statements, are that under the budgetary basis encumbrances are recognized as expenditures, the federal revenue related to such encumbrances is also recognized, and the budgetary basis reflects transactions only for the current fiscal year. In addition, under the GAAP basis in the fund financial statements, certain grants and other financial assistance are required to be recorded as revenues and expenditures.

The Budgetary Comparison Schedule displays the undesignated-unreserved fund balance for the original budget, final budget, and actual amounts (budgetary basis). The beginning fund balance for the original budget is estimated as of July 1 while the beginning fund balance for the final budget and actual amount columns represent actual amounts.

**STATE OF NEW JERSEY
DESCRIPTION OF FUNDS**

Alcohol Education, Rehabilitation and Enforcement Fund (N.J.S.A. 54:32C)

Special Revenue Fund

Annual deposits of \$11 million are made to this Fund from annual Alcohol Beverage Excise Tax collections. The monies collected shall be dedicated as follows: 75.0 percent to alcohol rehabilitation, 15.0 percent to enforcement, and 10.0 percent to education. Additionally, a \$40 fee paid by persons convicted of operating a motor vehicle under the influence of intoxicating liquor or drugs are deposited into this Fund to be used for the screening, evaluation, education, and referral of persons who have been convicted of driving while intoxicated.

Alternate Benefit Long-Term Disability Fund

Pension Trust Fund

The Fund is employer-funded for long-term disability. Benefits are paid to those members of the Alternate Benefit Programs Fund who have been disabled for two years or more since October 1, 1986.

Alternate Benefit Program Fund (N.J.S.A. 18A:66-167 et seq.)

Agency Fund

The Alternate Benefit Program was established for full-time faculty members of public institutions of higher education. At its inception, all eligible faculty members were permitted to transfer their interests in State retirement systems to this program. Participants have the option to provide for their pensions through fixed or variable annuities purchased through various carriers as provided for in P.L. 1995, c.92. The minimum contribution by employees is 50 percent of their base salary, with the State contributing an amount equivalent to 8.0 percent of their base salary. Almost immediate vesting is available to those participating in the Alternate Benefit Program.

Atlantic City Parking Fees Fund (P.L. 1993, c.159)

Special Revenue Fund

A \$3 parking fee per diem is imposed for each vehicle parked, garaged, or stored in any casino hotel parking space. One half of the revenue collected is to be made available to the Casino Reinvestment Development Authority. The remaining one half is deposited into the Casino Revenue Fund.

Atlantic City Projects-Room Fund (P.L. 2001, c.221)

Special Revenue Fund

The Atlantic City Projects-Room Fund facilitates the development of entertainment-retail projects in specified districts located within Atlantic City and to promote the revitalization of other urban areas throughout the State. Room Fund revenue is comprised of Tourism Promotion Fee receipts limited to annual Luxury Tax receipts that exceed the pre-determined baseline amount for a given district. Project Fund revenue is comprised of Sales Tax receipts received from the entertainment-retail vendors within each district project.

Atlantic City Tourism Promotion Fund (P.L. 1991, c.376)

Special Revenue Fund

This Fund accounts for revenues collected for fees of \$2 per day for each occupied room in any hotel providing casino gaming and \$1 per day for each occupied room in any other hotel in the eligible municipality. The revenues are collected, certified, and distributed on a monthly basis to the Atlantic City Convention and Visitors Authority. Amounts expended are solely for the purpose of promoting tourism, conventions, resorts, and casino gaming.

Beaches and Harbor Fund (P.L. 1977, c.208)

Special Revenue Fund

An amount of \$30 million of General Obligation bonds was authorized to research, plan, acquire, develop, construct, and maintain beaches and harbors.

Board of Bar Examiners (R. 1:27B1)

Special Revenue Fund

This Fund was established for the purposes of drafting bar essay examination questions, reviewing applications, and preparing, administering, and grading bar examinations. Revenues are generated by payments made by candidates for admission to the Bar of the State of New Jersey. Revenues include examination fees, late fee charges, certificates of good standing, license name changes, and copying fees.

Boarding House Rental Assistance Fund (N.J.S.A. 55:14K-14)

Special Revenue Fund

This Fund finances life safety improvement loans by the New Jersey Housing and Mortgage Finance Agency for the benefit of residents of boarding homes; and to provide a source of repayment for such life safety improvement loans.

Body Armor Replacement Fund (P.L. 1997, c.177)

Special Revenue Fund

This Fund is a repository for monies used exclusively for the purchase of body vests for law enforcement officers and correction officers.

Capital City Redevelopment Loan and Grant Fund (P.L. 1987, c.58)

Special Revenue Fund

This Fund was established for the redevelopment and revitalization of the City of Trenton. The State has established the Capital City Redevelopment Corporation to operate within the boundaries of the Trenton district, which plans, coordinates, and promotes the public and private development of that district in a manner that enhances the Trenton area's vitality as a place of commerce, recreation, and culture and as an area which to conduct public business and visit historic sites.

Casino Control Fund (N.J.S.A. 5:12-143)

Special Revenue Fund

This Fund accounts for fees from the issuance and annual renewal of casino licenses, work permit fees, and other license fees. Appropriations fund the operations of the Casino Control Commission and the Division of Gaming Enforcement.

Casino Revenue Fund (N.J.S.A. 5:12-145)

Special Revenue Fund

This Fund accounts for the tax on gross revenues generated by the casinos. Gross revenue refers to the total of all sums actually received by a licensee from gaming operations, less the total sums paid out as winnings to patrons and a deduction for uncollectible gaming receivables. Other taxes and fees deposited into this Fund are the Casino Net Income Tax, Casino Complimentary Tax, Casino Room Fee, Progressive Slot Tax, and a portion of the Casino Parking Fee. Appropriations from this Fund must be used for reductions in property taxes, utility charges, and other specified expenses of eligible senior citizens.

Casino Simulcasting Fund (P.L. 1992, c.19)

Special Revenue Fund

Casino simulcasting is defined as the simultaneous transmission by picture of running or harness horse races conducted at race tracks to Atlantic City casinos and pari-mutuel wagering at those gambling establishments on the results of those races. A portion of the revenue generated from casino simulcasting is to be deposited into this Fund and shall be used for services to benefit senior citizens.

Casino Simulcasting Special Fund (P.L. 1992, c.19)

Special Revenue Fund

Casino simulcasting is defined as the simultaneous transmission by picture of running or harness horse races conducted at race tracks to Atlantic City casinos and pari-mutuel wagering at those gambling establishments on the results of those races. A portion of the revenue generated from casino simulcasting is to be deposited into this Fund and shall be disbursed to the Atlantic City Racetrack, Atlantic City casinos conducting simulcasting, and for other miscellaneous purposes.

Catastrophic Illness in Children Relief Fund (P.L. 1987, c.370)

Special Revenue Fund

This Fund provides assistance to children and their families whose medical expenses due to a child's "catastrophic illness" extend beyond the families' available resources. Revenue is derived from a \$1 annual surcharge per employee for all employers who are subject to the New Jersey Unemployment Compensation Law.

Central Pension Fund

Pension Trust Fund

This Fund administers a series of noncontributory pension acts. No reserves are established for the payment of retirement benefits. These benefits are funded on a pay-as-you-go basis in accordance with the governing statute and the rules and regulations of the State House Commission.

Clean Communities Account Fund (P.L. 1985, c.533)

Special Revenue Fund

A user fee on sales of litter-generating products is credited to the Clean Communities Account Fund. Twenty-five percent of the annual amount credited to the Fund, but not more than \$4 million per year, is appropriated to the State Recycling Fund to provide recycling grants to municipalities and counties for local recycling programs. The balance of money credited to the Fund is used to provide grants to eligible municipalities for programs of litter pickup and removal; and is also used for a State program of litter pickup and removal and of enforcement of litter-related laws.

Clean Energy Fund (P.L. 1999, c.23)

Special Revenue Fund

**STATE OF NEW JERSEY
STATE CONSTITUTION - LEGAL DEBT LIMITATIONS**

The State Constitution provides that the Legislature shall not create a debt or liability in any fiscal year which, together with any previous debts or liabilities, shall exceed one percent of total appropriations for that fiscal year unless the same shall be authorized by a law for some single object or been submitted to the people at a general election and has been approved by a majority of voters. These Constitutional Provisions do not apply to the creation of debt for purposes of war, or to repel invasion, or to suppress insurrection, or to meet emergencies caused by disaster or act of God (Article VIII, Section 2, par. 3).

All general obligation bonded debt in New Jersey is entered into as a result of successful referenda. As the table below illustrates, the debt margin as defined by the Constitution would prohibit any other method of creation of such debt or liability.

New Jersey Motor Vehicle Commission Bonds, Series 2003A

The bonds will be repaid solely from surcharges that are being used to pay outstanding MTF Senior Lien Revenue Bonds as well as any other future bonds, notes, or other obligations hereafter issued under the same Bond Resolution. The MTF Senior Lien Revenue Bonds have a final maturity date of July 1, 2011. The New Jersey Motor Vehicle Commission Bonds, Series 2003A consist of capital appreciation bonds. Therefore, debt service payments are made when the bonds mature. Final maturities on the New Jersey Motor Vehicle Commission Bonds occur on July 1, 2012, July 1, 2013, July 1, 2014, and July 1, 2015.

Motor Vehicle Surcharges Revenue Bonds, 2004 Series A (1)

Beginning on July 1, 2006, the Motor Vehicle Surcharges Revenue Bonds will be repaid solely from (i) unsafe driving surcharges, which are surcharges collected by the courts from drivers convicted of unsafe driving violations, (ii) surcharges that remain after funding debt service on MTF Senior Lien Revenue Bonds and New Jersey Motor Vehicle Commission Bonds, and (iii) all surcharges that are being used to amortize the MTF Senior Lien Revenue Bonds and New Jersey Motor Vehicle Commission Bonds after they have been fully retired.

Motor Vehicle Surcharge Revenue Bonds, Special Needs Housing Program, 2005 Series A

Beginning on July 1, 2006, the Motor Vehicle Surcharges Revenue Bonds will be repaid solely from (i) unsafe driving surcharges, which are surcharges collected by the courts from drivers convicted of unsafe driving violations, (ii) surcharges that remain after funding debt service on MTF Senior Lien Revenue Bonds and New Jersey Motor Vehicle Commission Bonds, and (iii) all surcharges that are being used to amortize the MTF Senior Lien Revenue Bonds and New Jersey Motor Vehicle Commission Bonds after they have been fully retired. The Special Needs Housing Program Bonds, 2005 Series A consist of capital appreciation bonds. Therefore, debt service payments are made when the bonds mature. Final maturities on the Special Needs Housing Program Bonds occur on July 1, 2016, July 1, 2017, July 1, 2018, and July 1, 2019.

Tobacco Settlement Financing Corporation, Inc.
Tobacco Settlement Asset—Backed Bonds (Series 2002 and Series 2003)

Pursuant to a Purchase and Sale Agreement between the State and the Tobacco Settlement Financing Corporation, Inc., the State has sold its future rights to receive payments under the Master Settlement Agreement entered into by participating cigarette manufacturers, 46 states and six other United States jurisdictions. The purchase price of the State's future rights, title and interest in the Tobacco Settlement Revenues has been financed by the issuance of these bonds. The Tobacco Settlement Financing Corporation, Inc. has pledged these future payments in order to secure the Tobacco Settlement Bonds. The State is not obligated to pay, and neither the full faith and credit nor the taxing power of the State is pledged to the payment of, principal or interest on the bonds.

Cigarette Tax Revenue Bonds, Series 2004 (2)

Beginning on July 1, 2006, the bonds are to be repaid from a separate nonlapsing "Dedicated Cigarette Tax Revenue Fund" that will be credited on a monthly basis an amount equal to the tax collected by the State from \$0.0325 per cigarette (i.e., \$0.65 per pack of 20 cigarettes). However, no credits of dedicated revenues may be made to the Dedicated Cigarette Tax Revenue Fund in any fiscal year until the legislatively required deposits of Cigarette Tax revenues into the State Cancer Research Fund and State Health Care Subsidy Fund have been made. Once these deposits occur, a "catch-up" mechanism temporarily credits all Cigarette Tax revenues to the Dedicated Cigarette Tax Revenue Fund until it reaches the level it otherwise would have reached if the deposits had not been made.

Notes:

- (1) Motor Vehicle Surcharges Revenue Bonds have provided for debt service payments through July 1, 2006 through the use of capitalized interest.
- (2) Cigarette Tax Revenue Bonds have provided for debt service payments through July 1, 2006 through the use of capitalized interest.

NEW JERSEY HISTORICAL FACTS AND FIGURES

The State was one of the original thirteen colonies and was the third state to ratify the United States Constitution in 1787. The original State Constitution was adopted on July 2, 1776 and was subsequently superseded by the State Constitution of 1844. A new State Constitution was prepared by a constitutional convention in 1947 and was ratified by voters of the State in the general election held on November 4, 1947.

The State Constitution establishes a bicameral legislature, which meets in annual sessions in Trenton, the State capital. Members of the State Senate are elected to terms of four years, except for the election following a decennial census, in which case the term is for two years. The members of the General Assembly are elected to two-year terms. The Governor is elected to a term of four years.

The State ranks fifth smallest in size, with an area of 7,418.8 square miles. The estimated population as of July 1, 2005 was 8,718,000 making New Jersey the ninth largest state in population, and the most populated of all the states, with an average of 1,175 people per square mile.

As of June 30, 2006 there were 16 departments of the Executive Branch of State Government. Effective July 1, 2006 a new department, Children and Families, was created to bring the total number of executive branch departments to 17. The maximum number of executive branch departments permitted by the State Constitution is 20.

The higher education system in New Jersey includes 26 private colleges, 19 community colleges, as well as 12 State institutions.

The State Seal

Pierre Eugene du Simitiere designed the State Seal and presented it in May 1777 to the Legislature. The three plows in the shield honor the state's agriculture tradition. During the Revolutionary War, New Jersey's economic power, as well as its military significance, was based on the fact that it was the breadbasket of the Mid-Atlantic region. Continental and British soldiers in the state were engaged in skirmishes aimed at securing exclusive access to New Jersey's farm stores and livestock herds as a source of army provisions. The helmet on the State Seal above the shield faces forward, an attitude denoting sovereignty and thus particularly fitting for one of the first governments created under the notion that the state itself is the sovereign. The helmet is also a symbol for the importance of human intelligence and honor to the affairs of state. The crest above the helmet is a horse's head. New Jersey was and still is a major center for horse breeding. The equestrian head also symbolizes the attributes of strength, speed, and utility in war or commerce. The supporting female figures are Liberty and Ceres. Liberty, on the viewer's left, carries a staff with the same kind of "Liberty cap" worn as a symbol of rebellion by patriots throughout the colonies. Ceres, the Roman goddess of grain, holds a cornucopia filled with harvested produce representing the extraordinary fertile soils and natural abundance of the state's fields, forests, and waters. Below them is a scroll bearing the motto "Liberty and Prosperity," and the year of statehood, 1776.

The State Flag

The official colors of New Jersey for use on the state flag and for other purposes were established by statute as buff and Jersey blue.

Other Legislative Designations

The State Fruit is the blueberry. The State Flower is the violet. The Eastern Goldfinch is the State Bird. The State Animal is the horse, while the State Fish is the brook trout. The knobbed whelk, commonly known as the conch is the State Shell. The red oak is the Official State Tree, while the dogwood is the State Memorial Tree. Inspired by a group of schoolchildren and not even classified as a bug, the honeybee was designated as the State Bug. The State Folk Dance is the square dance. The State Dinosaur is the Hadrosaurus Foulki, a 25-foot-long, duck-billed creature that was unearthed in a Haddonfield, New Jersey marl pit in October 1858, by William Parke Foulke.

The State Tall Ship is the A.J. Meerwald, a Delaware Bay oyster schooner launched in 1928. The ship is constructed of oak planks laid over oak frames, is 115 feet long has a beam of 22 feet, 3 inches, and weighs 57 tons. In 1942, the tall ship was commandeered by the Maritime Commission under the War Powers Act for use by the Coast Guard as a fireboat. Five years later, it was returned to its owners and used as an oyster dredge, under power, without sails, until the industry vanished in 1957. The A.J. Meerwald was used as a clam dredge from 1959 until 1989, when it was turned over to The Delaware Bay Schooner Project. Today, the A.J. Meerwald serves as a floating classroom, promoting ecological and historical awareness of the bay and the waters of New Jersey.
