Independent Auditors' Report

State House Commission
State of New Jersey
Judicial Retirement System:

We have audited the accompanying statements of fiduciary net assets of the State of New Jersey Judicial Retirement System (the System) as of June 30, 2007 and 2006, and the related statements of changes in fiduciary net assets for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey Judicial Retirement System as of June 30, 2007 and 2006, and the changes in its financial position for the years then ended in conformity with U.S. generally accepted accounting principles.

Management's Discussion and Analysis and the supplementary information included in the schedule of funding progress and schedule of employer contributions (schedules 1 and 2) are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the System's basic financial statements. The 2007 schedule of changes in fiduciary net assets by fund (schedule 3) is presented for purposes of additional analysis and is not a required part of the basic financial statements of the System. Such information has been subjected to the auditing procedures applied in the audit of the 2007 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2007 basic financial statements taken as a whole.

KPMG LLP

February 29, 2008

Our discussion and analysis of the financial performance of the Judicial Retirement System (the System) provides an overview of the System's financial activities for the fiscal years ended June 30, 2007 and 2006. Please read it in conjunction with the basic financial statements and financial statement footnotes, which follow this discussion.

Financial Highlights

2007 – 2006

- Net assets held in trust for pension benefits increased by $34,058,290 as a result of fiscal year 2007's operations from $338,292,258 to $372,350,548.
- Additions for the year are $67,158,822, which are comprised of member and employer pension contributions of $14,943,425 and investment income of $52,215,397.
- Deductions for the year are $33,100,532, which are comprised of benefit and refund payments of $32,941,192 and administrative expenses of $159,340.

2006 – 2005

- Net assets held in trust for pension benefits increased by $10,693,382 as a result of fiscal year 2006's operations from $327,598,876 to $338,292,258.
- Additions for the year were $42,030,574, which are comprised of member and employer pension contributions of $9,555,469 and investment income of $32,475,105.
- Deductions for the year were $31,337,192, which are comprised of benefit and refund payments of $31,157,805 and administrative expenses of $179,387.

The Statements of Fiduciary Net Assets and the Statements of Changes in Fiduciary Net Assets

This annual report consists of two financial statements: *The Statements of Fiduciary Net Assets* and *The Statements of Changes in Fiduciary Net Assets.* These financial statements report information about the System and about its activities to help you assess whether the System, as a whole, has improved or declined as a result of the year's activities. The financial statements were prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period they are earned, and expenses are recorded in the year they are incurred, regardless of when cash is received or paid.

The Statements of Fiduciary Net Assets show the balances in all of the assets and liabilities of the System at the end of the fiscal year. The difference between assets and liabilities represents the System's fiduciary net assets. Over time, increases or decreases in the System's fiduciary net assets provide one indication of whether the financial health of the System is improving or declining. *The Statements of Changes in Fiduciary Net Assets* show the results of financial operations for the year. The statements provide an explanation for the change in the System's fiduciary net assets since the prior year. These two financial statements should be reviewed along with the information contained in the financial statement footnotes, including the required supplementary schedules, to determine whether the System is becoming financially stronger or weaker.

Financial Analysis

Summary of Fiduciary Net Assets

2007 – 2006

		2007	2006	Increase
Assets	$	447,752,493	404,262,039	43,490,454
Liabilities		75,401,945	65,969,781	9,432,164
Net assets	$	372,350,548	338,292,258	34,058,290

The System's assets mainly consist of cash, securities lending collateral, investments, and contributions due from members, and accrued investment income. Between fiscal years 2006 and 2007, total assets increased by $43.5 million or 10.8% due to an increase in the fair value of investments and securities lending collateral.

Liabilities consist of retirement benefits payable to retirees and beneficiaries, securities lending collateral and rebates payable, and other payables. Total liabilities increased by $9.4 million or 14.3% over last year due to an increase in the securities lending collateral and rebates payable and a slight increase in the retirement benefits payable.

Net assets held in trust for pension benefits increased by $34.1 million or 10.1%.

2006 – 2005

		2006	2005	Increase
Assets	$	404,262,039	382,725,780	21,536,259
Liabilities		65,969,781	55,126,904	10,842,877
Net assets	$	338,292,258	327,598,876	10,693,382

The System's assets mainly consist of cash, securities lending collateral, investments, and contributions due from members, and accrued investment income. Between fiscal years 2005 and 2006, total assets increased by $21.5 million or 5.6% due to an increase in the fair value of investments and securities lending collateral.

Liabilities consist of retirement benefits payable to retirees and beneficiaries, securities lending collateral and rebates payable, and other payables. Total liabilities increased by $10.8 million or 19.7% over last year due to an increase in retirement benefits payable and also an increase in securities lending collateral and rebates payable.

Net assets held in trust for pension benefits increased by $10.7 million or 3.3%.

Summary of Additions to Fiduciary Net Assets

2007 – 2006

		2007	2006	Increase
Member contributions	$	2,201,527	1,583,469	618,058
Employer contributions		12,741,898	7,972,000	4,769,898
Net investment income		52,215,397	32,475,105	19,740,292
Totals	$	67,158,822	42,030,574	25,128,248

Additions primarily consist of member and employer contributions and earnings from investment activities. Member contributions increased by $0.6 million or 39.0% due to increased interfund transfers of member contributions and accumulative interest.

The State made a contribution of $12.6 million in fiscal year 2007, the first significant contribution to the system since fiscal year 1997. The amount contributed in fiscal year 2007 is equal to approximately 57.5% of the actuarially determined amount.

Net investment income increased by $19.7 million or 60.8% due to an increase in the net appreciation in fair value of investments.

The total investment return for all pension funds was estimated to be 17.1% compared to 9.7% in the prior year.

2006 – 2005

		2006	2005	Increase
Member contributions	$	1,583,469	1,480,942	102,527
Employer contributions		7,972,000	6,162,076	1,809,924
Net investment income		32,475,105	26,763,410	5,711,695
Totals	$	42,030,574	34,406,428	7,624,146

Additions primarily consist of member and employer contributions and earnings from investment activities. Member contributions increased by $0.1 million or 6.9% due to an increased number of active members.

The State made a required contribution of $8.0 million to satisfy the actuarially accrued liability in fiscal year 2006.

Net investment income increased by $5.7 million or 21.3% due to an increase in the net appreciation in fair value of investments and a higher rate of return on investments.

The total investment return for all pension funds was estimated to be 9.7% compared to 8.7% in the prior year.

Management's Discussion and Analysis

June 30, 2007 and 2006

Summary of Deductions From Fiduciary Net Assets

2007 – 2006

		2007	2006	Increase (decrease)
Benefits	$	32,941,192	31,137,599	1,803,593
Refunds of contributions		—	20,206	(20,206)
Administrative expenses		159,340	179,387	(20,047)
Totals	$	33,100,532	31,337,192	1,763,340

Deductions are mainly comprised of pension benefit payments to retirees and beneficiaries, refunds of contributions to former members, and administrative costs incurred by the System. Benefit payments increased by $1.8 million or 5.8% primarily due to the increased number of retired members that are receiving benefits. Administrative expenses slightly decreased by 11.2%.

2006 – 2005

		2006	2005	Increase
Benefits	$	31,137,599	29,018,355	2,119,244
Refunds and adjustments		20,206	—	20,206
Administrative expenses		179,387	169,357	10,030
Totals	$	31,337,192	29,187,712	2,149,480

Deductions are mainly comprised of pension benefit payments to retirees and beneficiaries, refunds of contributions to former members, and administrative costs incurred by the System. Benefit payments increased by $2.1 million or 7.3% primarily due to the increased number of retired members that are receiving benefits. Administrative expenses slightly increased by 5.9%.

Retirement System as a Whole

The overall funded ratios are 74.8% for fiscal year 2007 and 79.3% for 2006.

Contacting System Financial Management

The financial report is designed to provide our members, beneficiaries, investors and other interested parties with a general overview of the System's finances and to show the System's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625 – 0295.

See accompanying notes to financial statements.

(1) Description of the System

The State of New Jersey Judicial Retirement System (the System; JRS) is a single-employer contributory defined benefit plan which was established as of June 1, 1973, under the provisions of N.J.S.A. 43:6A and amended and supplemented by Chapter 470, P.L. 1981. The System is included along with other state-administered pension trust and agency funds in the basic financial statements of the State of New Jersey.

The System's designated purpose is to provide retirement, death and disability benefits to its members. Membership in the System is mandatory for all members of the state judiciary in the State of New Jersey. The System's State House Commission is primarily responsible for its administration.

According to State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate.

Vesting and Benefit Provisions

The vesting and benefit provisions are set by N.J.S.A. 43:6A and amended and supplemented by Chapter 470, P.L. 1981. The System provides retirement benefits as well as death and disability benefits. Retirement benefits for age and years of service are as follows:

Age	Years of judicial service	Benefit as a percentage of final salary
70	10	75%
65	15	75
60	20	75

Age	Years of judicial service	Years of public and judicial service	Benefit as a percentage of final salary
65	5	15	50%
60	5	20	20

Retirement benefits are also available at age 60 with five years of judicial service plus 15 years in the aggregate of public service, or at age 60 while serving as a judge with the benefit determined to be 2% of final salary, as defined, for each year of public service up to 25 years plus 1% of final salary for each year in excess of 25 years. Deferred and early retirement benefits are also available.

Significant Legislation

Chapter 92, P.L. 2007 implements certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform. One recommendation eliminates the 4% fixed rate of interest for loans from the defined benefit plans and provides that the rate of interest will be set by the State Treasurer at a commercially reasonable rate as required by the Internal Revenue Code and permits that an administrative processing fee may be charged for such loans. As such, effective January 1, 2008, the new pension loan interest rate will be 4.69% per year, and an $8.00 processing fee per loan will be charged. Another recommendation removes language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the system when excess assets are available.

Membership and Contributing Employers

Membership in the System consisted of the following at June 30, 2006 and 2005, the dates of the most recent actuarial valuations:

	2006	2005
Retirees and beneficiaries receiving benefits currently and terminated employees entitled to benefits but not yet receiving them	440	430
Active members:		
Vested	212	219
Nonvested	228	207
Total active members	440	426
Total	880	856

The State of New Jersey is the only contributing employer of this System.

(2) Summary of Significant Accounting Policies

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The System is accounted for using an economic resources measurement focus.

The accrual basis of accounting is used for measuring financial position and changes in fiduciary net assets of the System. Under this method, revenues are recorded in the accounting period in which they are earned, and deductions are recorded at the time the liabilities are incurred. The financial statements of the System conform to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contributions Plans*. Employer contributions are recognized when payable to the System. Benefits and refunds are recognized when due and payable in accordance with the terms of the System.

Investments

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of seven of the defined benefit plans (PERS, TPAF, JRS, PFRS, CPFPF, SPRS and POPF). The Division of Investment separately reports the assets, liabilities and net assets of the underlying investment portfolio of the seven defined benefit plans in its Pension Fund report. The Division of Investment accounts included in the Pension Fund report are: Common Fund A, Common Fund B, Common Fund D, Common Fund E, Police and Firemen's Mortgage Program accounts and other investments owned directly by the seven defined benefit pension plans. Common Fund A invests primarily in domestic equity securities. Common Fund B invests primarily in domestic fixed income securities. Common Fund D invests primarily in foreign equity and fixed income securities. Common Fund E invests primarily in alternative investments which includes private equity, real assets and absolute return strategy investments. The Police and Firemen's Retirement System includes a mortgage loan program administered by the New Jersey Housing and Mortgage Finance Agency that provides participants with mortgages from the program at rates which are fixed by formula. The law establishing the program provides that the Fund may not sell the mortgages, and no independent market exists for them.

Valuation of Investments

Investments are reported at fair value as follows:

- U.S. Government and Agency, Foreign and Corporate obligations – prices quoted by a major dealer in such securities.
- Common Stock and Equity Funds, Foreign Equity Securities, Forward Foreign Exchange Contracts – closing prices as reported on the primary market or exchange on which they trade.
- Money Market Instruments – amortized cost which approximates fair value.
- Cash Management Fund – closing bid price on the last day of trading during the period as determined by the Transfer Agent.
- Alternative investments (private equity, real assets and absolute return strategy funds) – estimated fair value provided by the investment manager and reviewed by management. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ significantly from the value that would be used if a ready market for such investments existed. Accordingly, the realized value received upon the sale of the asset may differ from the fair value.

Investment Transactions

Investment transactions are accounted for on a trade date basis. Gains and losses from investment transactions are determined by the average cost method. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex-dividend date.

Unit Transactions

The net asset value of Common Funds A, B, D and E (Common Funds) is determined as of the close of the last day of business of each month. Purchases and redemptions of participants' units are transacted each month within fifteen days subsequent to that time and at such net asset value.

Dividends and interest earned per unit are calculated monthly and distributed quarterly for Common Fund A and B. Dividends and interest earned per unit are calculated monthly for Common Fund D, and the income earned on Common Fund D units is reinvested. Income earned per unit is calculated monthly for Common Fund E, and the income earned on Common Fund E units is reinvested.

Securities Lending

Common Funds A, B and D and several of the directly-held pension plan portfolios participate in securities lending programs, whereby securities are loaned to brokers or to other borrowers and, in return, the Pension Fund has rights to the collateral received. All of the securities held in Common Funds A, B and D, and certain securities held directly by the pension plans, are eligible for the securities lending program. Collateral received may consist of cash, letters of credit, or government securities having a market value equal to or exceeding 102% (U.S. dollar denominated) or 105% (non-U.S. dollar denominated) of the value of the loaned securities at the time the loan is made. For Common Funds A and B, in the event that the market value of the collateral falls below 101% of the market value of all the outstanding loaned securities to an individual borrower, additional collateral shall be transferred by the borrower to the respective funds no later than the close of the next business day so that the market value of such additional collateral, when added to the market value of the other collateral, shall equal 102% of the market value of the loaned securities. For Common Fund D, in the event that the market value of the collateral falls below the collateral requirement of either 102% or 105% (depending on whether the securities are denominated in U.S. dollars or a foreign currency, respectively) of the market value of the outstanding loaned securities to an individual borrower, additional collateral shall be transferred in an amount that will increase the aggregate of the borrower's collateral to meet the collateral requirements. As of June 30, 2007 and 2006, the Common Funds have no aggregate credit risk exposure to brokers because the collateral amount held by the Common Funds exceeded the market value of the securities on loan.

The contracts with the Common Funds' custodian banks require them to indemnify the Common Funds if the brokers or other borrowers fail to return the securities or fail to pay the Common Funds for income distributions on the securities while they are on loan. The custodian bank for Common Fund D also indemnifies Common Funds for any loss of principal or interest on the invested collateral. For any losses on the investment collateral in Common Funds A or B or other pension plan portfolios, the lending fee paid to the lending agent shall be reduced by 25% of the amount of such loss, up to an amount not to exceed 75% of the previous six months' securities lending fees. The securities loans can be terminated by notification by either the borrower or the Common Funds. The term to maturity of the securities loans is generally matched with the term to maturity of the investment of the cash collateral.

Derivatives

The Common Funds' international portfolio managers utilize forward foreign currency contracts, a derivative security, as a means to hedge against the currency risk in the Common Funds' foreign stock and fixed income portfolios. A derivative security is an investment whose payoff depends upon the value of other assets such as bond and stock prices, a market index, or commodity prices. Derivative transactions involve, to varying degrees, credit risk and market risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to terms. Market risk is the possibility that a change in market prices or currency rates will cause the value of a financial instrument to decrease or become more costly to settle.

Forward foreign currency contracts are agreements to buy or sell a specific amount of a foreign currency at a specified delivery or maturity date for an agreed upon price. Forward foreign currency contracts are used to hedge against the currency risk in the Common Funds' foreign stock and fixed income portfolios.

There were no foreign forward currency contracts at June 30, 2007. The fair value of foreign forward currency contracts held directly by the Common Funds as of June 30, 2006 is as follows:

Forward currency receivable	$ 1,887,515,323
Forward currency payable	1,902,654,117
Net unrealized loss (gain)	$ 15,138,794

The net unrealized gain or loss is included in investments in the accompanying statements of net assets at June 30, 2007 and 2006.

The Common Funds utilize covered call and put options in an effort to add value to or reduce the risk level in the portfolio. Covered options are agreements that give the owner of the option the right, but not obligation, to buy (in the case of a call option) or to sell (in the case of a put option) a specific amount of an asset for a specific price (called the strike price) on or before a specified expiration date. The writer of call options receives a premium at the outset of the agreement and bears the risk of an unfavorable change (i.e., an increase) in the price of the instrument underlying the option. The common Funds had written call options on 182,000 shares with a fair value of $470,032 at June 30, 2006 which are reflected as contra-assets to the fair value of the portfolio. The Common Funds owned 53,208 contracts on indexed put options with a fair value of $169,137,647 at June 30, 2007 and put options on 6,990,800 shares with a fair value of $1,631,358 at June 30, 2006, which are included in the fair value of the portfolio.

Certain alternative investment funds and partnerships may use derivative instruments to hedge against market risk and to enhance investment returns. At any point during the year, the Common Funds may have additional exposure to derivatives primarily through limited liability vehicles such as limited partnerships and commingled investment funds.

Members' Loans

Chapter 25, P.L. of 1997 which was enacted on March 7, 1997, allows active contributing members to borrow against their accumulated deductions in the System. Any member who has at least three years of service in the System may borrow up to 50% of their accumulated member contributions. Repayment of loan balances is deducted from payroll checks and bears an interest rate of 4%. Members who retire with an outstanding loan have the option of paying the loan in full prior to receiving any benefits or continuing their monthly loan payment schedule into retirement.

Under the Internal Revenue Service regulations effective January 1, 2004, the Division changed its pension loan repayment policy: Members who take multiple loans must repay the outstanding balance of the original loan, and all subsequent loans taken before the original loan is completely paid off, within a period not to exceed 5 years from the issuance of the first loan taken after January 1, 2004. Failure to repay the loan within the five-year period will result in the unpaid balance being declared a taxable distribution.

Administrative Expenses

The System is administered by the State of New Jersey Division of Pensions and Benefits. Administrative expenses are paid by the System to the State of New Jersey, Department of the Treasury and are included in the accompanying statement of changes in fiduciary net assets.

(3) Investments

The System is invested in Common Fund A, Common Fund B, Common Fund D, Common Fund E, and other investments, including mortgage backed securities, which represent 0.38%, 0.41%, 0.44%, 0.86%, and 0.15%, respectively, of each investment total of the Pension Fund as of June 30, 2007.

The System is invested in Common Fund A, Common Fund B, Common Fund D, Common Fund E, and other investments, including mortgage backed securities, which represent 0.45%, 0.47%, 0.45%, 1.01%, and 0.17%, respectively, of each investment total of the Pension Fund as of June 30, 2006.

The Pension Fund investments as of June 30 are as follows:

		2007	2006
Domestic equities	$	31,474,841,997	36,206,866,148
International equities		17,174,769,178	12,953,297,531

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division and the role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for permissible investments which include domestic and international equities and exchange traded funds, covered call and put options, equity futures contracts, obligations of the U.S. Treasury, government agencies, corporations, finance companies and banks, obligations of international corporations, governments and agencies, interest rate swap transactions, fixed income exchange traded funds, U.S. Treasury futures contracts, New Jersey State and Municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, funding agreements, money market funds, private equity, real estate, other real assets and absolute return strategy funds.

The Pension Fund investments are subject to various risks. Among these risks are credit risk, concentration of credit risk, interest rate risk and foreign currency risk. Each one of these risks is discussed in more detail below.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is evaluated by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P), and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States treasury and government agency obligations. Council regulations require minimum credit ratings for certain categories of fixed income obligations held directly by the Pension Fund and limit the amount that can be invested in any one issuer or issue. These limits for the period July 1, 2006 through September 4, 2006 were as follows:

Category	Minimum rating		Limitation of issuer's outstanding debt	Limitation of issue	Other limitations
	Moody's	S&P			
Corporate obligations	Baa	BBB	25%	25%	—
U.S. finance company debt, bank debentures and NJ state and municipal obligations	A	A	10%	10%	—
Canadian obligations	A	A	10%	10%	Purchase cannot exceed greater of 10% of issue or $10 million; not more than 2% of fund assets can be invested in any one issuer
International government and agency obligations	Aa	AA	2%	10%	Not more than 1% of fund assets can be invested in any one issuer
Public authority revenue obligations	A	A	—	10%	Not more than 2% of fund assets can be invested in any one public authority
Collateralized notes and mortgages	Baa	BBB	—	33.3%	Not more than 2% of fund assets can be invested in any one issuer
Commercial paper	P-1	A-1	—	—	—
Certificates of deposit and Banker's acceptances (rating applies to international)	Aa/P-1	—	—	—	Uncollateralized certificates of deposit and banker's acceptances cannot exceed 10% of issuer's primary capital
Guaranteed income contracts	P-1	—	—	—	A+ rating from A.M. Best for insurance companies
Money market funds	—	—	—	—	Not more than 10% of fund assets can be invested in money market funds; limited to 5% of shares or units outstanding

Effective September 5, 2006, the following limits became effective:

Category	Minimum rating Moody's	Minimum rating S&P	Minimum rating Fitch	Limitation of issuer's outstanding debt	Limitation of issue	Other limitations
Corporate obligations	Baa3	BBB-	BBB-	10%	25%	Not more than 5% of fund assets can be invested in one corporation
U.S. finance company debt and bank debentures	Baa3	BBB-	BBB-	10%	25%	Not more than 5% of fund assets can be invested in one corporation
International corporate obligations	Baa3	BBB-	BBB-	10%	25%	Not more than 5% of fund assets can be invested in any one issuer with maturities exceeding 12 months; not more than 10% of fund assets can be invested in this category
International government and agency obligations	Aa3	AA-	AA-	25%	Greater of 25% or $10 million	Not more than 1% of fund assets can be invested in any one issuer
Collateralized notes and mortgages	Baa3	BBB-	BBB-	—	25%	Not more than 5% of fund assets can be invested in any one issue; not more than 10% of fund assets (or 20% of Fund B assets) can be invested in this category
Commercial paper	P-1	A-1	F1	—	—	—
Certificates of deposit and Banker's acceptances:						Certificates of deposit and banker's acceptances cannot exceed 10% of issuer's primary capital
Domestic	A3/P-1	A-/A-1	A-/F1	—	—	
International	Aa/P-1	AA-/A-1	AA-/F1	—	—	
Guaranteed income contracts and funding agreements	A3	A-	A-	—	—	—
Money market funds	—	—	—	—	—	Not more than 10% of fund assets can be invested in money market funds; limited to 5% of shares or units outstanding

Category	Minimum rating Moody's	S&P	Fitch	Limitation of issuer's outstanding debt	Limitation of issue	Other limitations
Interest rate swap transactions	A3	A-	A-	—	—	Notional value of net exposure to any one counterparty shall not exceed 10% of fund assets
Repurchase agreements	Aa3	AA-	AA-	—	—	—
NJ state & municipal obligations	A3	A-	A-	10%	10%	Not more than 10% of fund assets can be invested in debt of any one political entity maturing more than 12 months from purchase
Public authority revenue obligations	A3	A-	A-	—	10%	Not more than 2% of fund assets can be invested in any one public authority
Mortgage backed passthrough securities	A3	A-	A-	—	—	Not more than 5% of fund assets can be invested in any one issue
Mortgage backed senior debt securities	—	—	—	—	25%	Not more than 5% of fund assets can be invested in any one issue

Up to 5% of the market value of Common Fund B may be invested in corporate obligations, finance company debt, bank debentures, international corporate obligations, collateralized notes, and mortgages and mortgage backed pass-through securities that do not meet the minimum credit rating requirements set forth above.

For securities in the fixed income portfolio, the following tables disclose aggregate market value, by major credit quality rating category at June 30, 2007 and 2006:

The table does not include certain corporate obligations totaling $24,426,500 which have an S&P rating of A and do not have a Moody's rating. The Police and Firemen's Mortgages and the Cash Management Fund are unrated.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Commercial paper must mature within 270 days. Certificates of deposits and bankers acceptances are limited to a term of one year or less. The maturity requirement for repurchase agreements was 15 days through September 4, 2006; this was revised to 30 days effective September 5, 2006. The investment in guaranteed income contracts and funding agreements is limited to a term of 10 years or less.

The following table summarizes the maturities (or, in the case of Remics, Police and Firemen's Mortgages and mortgage-backed securities, the expected average life) of the fixed income portfolio at June 30, 2007 and 2006:

(In thousands)	June 30, 2007

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Pension Fund invests in global markets. The market value of international preferred and common stocks and issues convertible into common stocks, when combined with the market value of international government and agency obligations, previously could not exceed 22% of the market value of the Pension Fund. Effective September 5, 2006, the market value of emerging market securities cannot exceed more than 1.5 times the percentage derived by dividing the total market capitalization of companies included in the Morgan Stanley Capital International (MSCI) Emerging Market Index by the total market capitalization of the companies included in the MSCI All-Country World Ex-United States Index of the total market value of the assets held by Common Fund D. Prior to September 5, 2006, not more than 5% of the value of the assets held by Common Fund D can be invested in companies incorporated in emerging market countries. Not more than 5% of the market value of the emerging market securities can be invested in any one corporation. Council regulations permit the Pension Fund to enter into foreign exchange contracts for the purpose of hedging the international portfolio. The Pension Fund held forward contracts totaling approximately $1.9 billion (with a $14 million net exposure) at June 30, 2006. The Pension Fund had the following foreign currency exposure (expressed in U.S. dollars and in thousands):

	June 30, 2007

The Cash Management Fund is not evidenced by securities that exist in physical or book entry form held by the Pension Fund.

The Pension Fund's interests in alternative investments may contain elements of credit, currency and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition. Effective September 5, 2006, Council regulations require that not more than 18% of the market value of the Pension Fund can be invested in alternative investments, with the individual categories of real estate, real assets, private equity and absolute return strategy investments limited to 7%. Not more than 5% of the market value of Common Fund E, plus outstanding commitments, may be committed to any one partnership or investment, without the prior written approval of the Council. The investments in Common Fund E cannot comprise more than 20% of any one investment manager's total assets.

(4) Securities Lending Collateral

The System's share in the securities lending program is 0.40% and 0.46% of the total market value of the collateral as of June 30, 2007 and 2006, respectively.

The securities lending collateral is subject to various risks. Among these risks are credit risk, concentration of credit risk, and interest rate risk. Agreements with the lending agents require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue. These limits are consistent with Council regulations and internal policies for funds managed by the Division. These limits for the period July 1, 2006 through September 4, 2006 were as follows:

Category	Minimum rating		Limitation of issuer's outstanding debt	Limitation of issue	Other limitations
	Moody's	S&P			
Corporate obligations	A3	A-	25%	25%	—
U.S. finance company debt and bank debentures	A2	A	10%	10%	—
Collateralized notes and mortgages	Aaa	AAA	—	33.3%	Limited to not more than 10% of the assets of the collateral portfolio
Commercial paper	P-1	A-1	—	—	Dollar limits by issuer
Certificates of deposit/ Banker's acceptances (rating applies to international)	Aa3/P-1	—	—	—	Uncollateralized certificates of deposit and banker's acceptances cannot exceed 10% of issuer's primary capital; dollar limits by issuer
Guaranteed income contracts	P-1	—	—	—	Limited to 5% of the assets of the collateral portfolio; A+ rating from A.M. Best for insurance companies
Money market funds	—	—	—	—	Limited to 10% of the assets of the collateral portfolio; limited to approved money market funds

Effective September 5, 2006, the following limits became effective:

Category	Minimum rating Moody's	 S&P	 Fitch	Limitation of issuer's outstanding debt	Limitation of issue	Other limitations
Corporate obligations	Baa3	BBB-	BBB-	10%	25%	—
U.S. finance company debt and bank debentures	Baa3	BBB-	BBB-	10%	25%	—
Collateralized notes and mortgages	Baa3	BBB-	BBB-	—	25%	Limited to not more than 10% of the assets of the collateral portfolio
Commercial paper	P-1	A-1	F1	—	—	Dollar limits by issuer
Certificates of deposit/ Banker's acceptances:						Certificates of deposit and banker's acceptances' cannot exceed 10% of issuer's primary capital; dollar limits by issuer
Domestic	A3/P-1	A-/A-1	A-/F1	—	—	
International	Aa3/P-1	AA-/A-1	AA-/F1	—	—	
Guaranteed income contracts and funding agreements	A3	A-	A-	—	—	Limited to 5% of the assets of the collateral portfolio
Money market funds	—	—	—	—	—	Limited to 10% of the assets of the collateral portfolio; limited to approved money market funds

Maturities of corporate obligations, U.S. finance company debt, bank debentures, collateralized notes and mortgages, guaranteed income contracts, and funding agreements must be less than 25 months. Commercial paper maturities cannot exceed 270 days. Repurchase agreement maturities cannot exceed 30 days. Certificates of deposit and banker's acceptances must mature in one year or less.

The collateral for repurchase agreements is limited to obligations of the U.S. Government or certain U.S. Government agencies, collateralized notes and mortgages and corporate obligations meeting certain minimum rating criteria.

Total exposure to any individual issuer is limited, except for U.S. Treasury and Government Agency Obligations. For money market funds, the total amount of shares or units purchased or acquired of any money market fund shall not exceed 5% of the shares or units outstanding of said money market fund. For Collateralized Notes and Mortgages, not more than 2% and 5% of the assets of the collateral portfolio shall be invested in the obligations of any one issuer and issue, respectively. For Guaranteed Income Contracts and Funding Agreements, the total investment in any one issuer shall be limited to 2.5% of the collateral portfolio. The Division sets individual issuer limits for Commercial Paper and Certificate of Deposits. For Corporate Obligations, U.S. Finance Company Debt, Bank Debentures and Bankers Acceptances, exposure to any one issuer shall be limited to the following percentages of the collateral portfolio in accordance with the issuer's rating from Moody's: Aaa (4%), Aa (3%), A (2%), and Baa (1%).

For securities exposed to credit risk in the collateral portfolio, the following table discloses aggregate market value, by major credit quality rating category at June 30, 2007 and 2006. In those cases where an issuer and/or security have both a long-term and short-term rating, the short-term rating is presented.

Collateralized notes		135,924	—	135,924
	$	14,104,695	10,257,024	3,847,671

As of June 30, 2007, the Pension Fund had outstanding loaned investment securities with an aggregate market value of $18,034,823,201 and received cash collateral of $18,423,399,432 and non-cash collateral of $4,471,761. As of June 30, 2006, the Pension Fund had outstanding loaned investment securities with an aggregate market value of $13,824,349,093 and received cash collateral of $14,115,678,308 and non-cash collateral of $1,670,223. In accordance with GASB accounting standards, the non-cash collateral is not reflected in the accompanying financial statements.

(5) Contributions

The contribution policy is set by N.J.S.A. 43:6A and requires contributions by active members and the State of New Jersey. Plan member and employer contributions may be amended by State of New Jersey legislation. Members enrolled on January 1, 1996 or after contribute at 3% on their entire base salary.

Contributions by active members enrolled prior to January 1, 1996 are based on 3% of the difference between their current salary and the salary of the position on January 18, 1982. The State of New Jersey is required to contribute at an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits. The State contributed $7.97 million in fiscal year 2006.

The State made a contribution of $12.60 million in fiscal year 2007, the first significant contribution to the system since fiscal year 1997. The amount contributed in fiscal year 2007 is equal to approximately 57.5% of the actuarially determined amount.

(6) Funds

The System maintains the following legally required funds:

Members' Annuity Savings Fund (2007 – $32,728,281; 2006 – $30,656,059)

The Members' Annuity Savings Fund (ASF) is credited with all contributions made by active members of the System. Interest earned on member contributions is credited to the Accumulated Interest Fund. Member withdrawals are paid out of this Fund.

Contingent Reserve Fund (2007 – $186,667,175; 2006 – $159,132,503)

The Contingent Reserve Fund is credited with the contributions of the State of New Jersey. Interest earnings, after crediting the Members' ASF and the Retirement Reserve Fund, as required, are also credited to this account. Additionally, payments for life insurance premiums and administrative expenses are made from this Fund.

Retirement Reserve Fund (2007 – $152,955,092; 2006 – $148,503,696)

The Retirement Reserve Fund is the account from which retirement benefits including cost-of-living adjustments are paid. Upon retirement of a member, accumulated contributions together with accumulated interest are transferred to the Retirement Reserve Fund from the Members' ASF. Any additional reserves needed to fund the balance of the retirement benefit are transferred from the Contingent Reserve Fund. Annually, interest as determined by the State Treasurer (8.25% since fiscal year 2006) is credited to the Retirement Reserve Fund.

(7) Income Tax Status

Based on a 1986 declaration of the Attorney General of the State of New Jersey, the System is a qualified plan as described in Section 401(a) of the Internal Revenue Code.
