New Jersey Notary Public Rules

Specially Adopted and Concurrently Proposed New Rules: N.J.A.C. 17:50-1

N.J.A.C. 17:50-1 is adopted pursuant to section 19 of P.L. 2020, c. 179 (N.J.S.A. 52:7-10 et seq.), the New Jersey Law on Notarial Act (Act). Most of the provisions at P.L. 2021, c. 179 are effective 90 days after July 22, 2021, the date Governor Murphy signed the Act into law. Pursuant to the Act, this subchapter shall become effective upon acceptance for filing by the Office of Administrative Law. The newly adopted rules shall be effective for a period not to exceed 18 months from the date of filing of the new rules, that is, until March 16, 2023. A concurrent proposal is also being filed under the usual Administrative Procedure Act procedures to make the rules permanent.

The purpose of the notary public (office) is a vital public function. Notaries public are called upon to perform many valuable services for New Jersey’s business, legal, and financial communities. Effective notary services help to ensure that documents are properly executed, that facts are duly certified, and, above all, that the public is protected from fraud. Notarization is essential for many official documents, including mortgages, deeds, contracts, and various corporate transactions.

The new rules focus on the core aspects of the office and notarial practice including:

● Qualifications for the office;
● Commissioning of notaries public;
● Requirements for:
  o Performance of notarial acts;
  o Identification of individuals involved in notarial acts;
  o Copy certification;
  o Use of communications technology; and
  o Electronic notarizations; and
● Criteria for refusal to perform a notarial service.

Collectively, the new rules will help to streamline the commissioning process, clarify and expand upon the requirements for conducting notarial acts, and provide for the use of new technologies for notarization. Further, the new rules will enhance the transparency, integrity, and accountability of the office by mandating detailed journal entries. The new rules will, in turn, lead to improved notarial service levels Statewide, place New Jersey on a strong footing in the practice space nationally, and bolster the reliability and integrity of notarial practices in general. The ultimate beneficiaries of these advancements will be New Jersey citizens and the State’s business and legal communities that rely on notarial services.

N.J.A.C. 17:50-1.1, Purpose, sets forth the purpose of the notary public rules.

N.J.A.C. 17:50-1.2, Definitions, incorporates certain terms defined at P.L. 2021, c. 179, and used in this subchapter, and defines additional terms for legal and technical implementation of the new law, including definitions for “notarial journal” and “verification on oath or affirmation.”

N.J.A.C. 17:50-1.18, Fees for notarial services, sets forth the fees that notaries public may charge for notarial services rendered.

As the Department of the Treasury has provided a 60-day comment period on this notice of concurrently proposed new rules, this notice is excepted from the rulemaking calendar requirement, pursuant to N.J.A.C. 1:30-3.3(a)5.

**Social Impact**

The concurrently proposed new rules will have a positive social impact on New Jersey. They will facilitate the completion of key legal transactions in fields such as real estate, finance, and health care, which undergird the well-being of the State’s citizens. The addition of new automated modes of notarization will add convenience and flexibility for those seeking commonly used notarial services. Perhaps, most importantly, by implementing more stringent requirements for journal entries and other technical components of notarizations, the concurrently proposed rules will help reduce document fraud and thereby protect the public from nefarious actors.

**Economic Impact**

By enabling new options for notarization—namely remote and electronic notarizations—the concurrently proposed new rules will help to expand and streamline notarial acts that are integral parts of commercial transactions. Likewise, by enhancing the quality and integrity of the notarial office, the concurrently proposed new rules will help to improve the reliability of notarial acts and increase trust in the document-based processes and transactions that are foundations for the State’s economy. Finally, the concurrently proposed new rules will help to ensure that New Jersey stays in step with evolving notarial practices in other states and at the Federal level.

**Federal Standards Statement**

N.J.S.A. 52:14B-1 et seq., requires State agencies that adopt, readopt, or amend State rules exceeding any Federal standards or requirements to include in the rulemaking document a Federal standards analysis. The concurrently proposed new rules are promulgated pursuant to P.L. 2021, c. 179, which modifies, limits, and supersedes the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. §§ 7001 et seq., but does not modify, limit, or supersede section 101(c) of that act, 15 U.S.C. § 7001(c), or authorize electronic delivery of any of the notices described in section 103(b) of that act, 15 U.S.C. § 7003(b).

The rules additionally reference various Federal notarial officers and the effectiveness of notarial acts taken by these officials. The rules are not promulgated under the authority of, or to implement, comply with, or participate in any program established under Federal law or under a State statute that incorporates Federal standards or Federal requirements. Accordingly, N.J.S.A. 52:14B-1 et seq., does not require a Federal standards analysis for the concurrently proposed new rules.

**Jobs Impact**

The concurrently proposed new rules are designed to implement the provisions of P.L. 2021, c. 179, and focus only on the core aspects of the notarial office and notarial practice. There will be no long- or short-term job increases or decreases associated with the concurrently proposed new rules.

**Agricultural Industry Impact**

The concurrently proposed new rules will have no impact on the agriculture industry.

**Regulatory Flexibility Statement**

A regulatory flexibility analysis is not required. The concurrently proposed new rules relate strictly to the notarial office (which is a public office) and notarial practices, and, therefore, do not impose requirements on small businesses as defined by the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq.

**Housing Affordability Impact Analysis**

The concurrently proposed new rules will not have an impact on housing affordability or on the average cost of housing in the State, as they relate strictly to the notarial office and notarial practices.

**Smart Growth Development Impact Analysis**

The concurrently proposed new rules relate strictly to the notarial office and notarial practices. They will not cause a change in housing production in Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan.

**Racial and Ethnic Community Criminal Justice and Public Safety Impact**

The concurrently proposed new rules relate strictly to the notarial office and notarial practices. They will not have an impact on pretrial detention, sentencing, probation, or parole policies concerning adults and juveniles in the State. Therefore, no further analysis is required.

**Full text** of the specially adopted and concurrently proposed new rules follows:
