TOPIC: INTEREST RATE ASSESSED FOR SECOND QUARTER 2001

The assessed interest rate for the second quarter of 2001 is **12.50%**.

The rate is calculated as follows: 9.50% (*Prime Rate*) + 3% = 12.50%, compounded annually.

Under the Taxpayers' Bill of Rights, interest assessed on outstanding tax balances is *Prime Rate* plus 3%. *Prime Rate* for this purpose is the average predominant prime rate, as determined by the Board of Governors of the Federal Reserve System, that was in effect on December 1 of the year prior to the year in which the tax became due. The *Prime Rate* is reviewed each calendar quarter and may change only if there has been a cumulative change in the Federal Reserve prime rate of more than one percent (up or down) since the last time the interest rate was set. To change a rate, the Director will consider the Federal Reserve prime rate as it existed 30 days prior to the beginning of the calendar quarter in question.

At the end of each calendar year any tax, penalties and interest remaining due (unpaid) will become part of the balance on which interest is charged.

Listed below is the Federal Reserve prime rate and assessed interest rate history.
